Written comments and suggestions from the public and affected agencies should address one or more of the following four points: (1) whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) suggestions to enhance the quality, utility, and clarity of the information to be collected; and (4) suggestions to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses. The comments that are submitted will be summarized and included in the request for approval. All comments will become a matter of public record.

### **Overview of This Information Collection**

**Title:** Section 321 E-Commerce Data

**OMB Number:** 1651-0142

**Form Number:** N/A

**Current Actions:** Revision

**Type of Review:** Revision

**Affected Public:** Businesses

**Abstract:** CBP is extending the pilot to continue testing this data. CBP is seeking participants including carriers, brokers, freight forwarders, and online marketplaces to provide companies who have not had the opportunity to participate in the pilot, the time to develop processes for gathering data from various sources in the supply chain to transmit a single and complete filing. It will also allow those companies the opportunity to test their ability to be the company that will gather and file the data.

CBP will continue to explore different and new technology that becomes available and can be incorporated into future regulation updates. The extension will continue to assist CBP in identifying future trade facilitation benefits. The goal of this pilot extension is to focus on improving the process and explore new technologies that will further streamline the process. The design of the pilot is not intended to estimate costs to participants or improvements to outcomes.
