[Docket No. CP16-116-000]

Texas LNG Brownsville LLC; Notice of Availability of the Final Supplemental Environmental Impact Statement for the Proposed Texas LNG Project

The staff of the Federal Energy Regulatory Commission (FERC or Commission) has prepared a final supplemental environmental impact statement (EIS) to address the August 6, 2024 Opinion issued by the U.S. Court of Appeals for the District of Columbia Circuit (court) regarding the Commission’s environmental review of the Texas LNG Project proposed by Texas LNG Brownsville LLC.^{1,2} The court remanded the Commission’s April 21, 2023 *Order on Remand* that approved the liquefied natural gas (LNG) terminal. The court found that FERC failed to issue a supplemental EIS consistent with the National Environmental Policy Act to discuss impacts on communities with environmental justice concerns and address why the Commission did not use data from a particular air quality monitor in the air analysis. As part of the Commission’s consideration of the proposed project on remand, we³ prepared this final supplemental EIS to assess the issues remanded by the court.

¹ *City of Port Isabel v. FERC*, 111 F.4th 1198 (D.C. Cir. 2024). On March 18, 2025, the court partially granted rehearing and remanded the case without vacatur.

² For tracking purposes under the National Environmental Policy Act, the unique identification number for documents relating to this environmental review is FERC/SEIS-019-20-000-1726224938.

³ “We,” “us,” and “our” refer to the environmental and engineering staff of the FERC’s Office of Energy Projects.

The Commission mailed a copy of the *Notice of Availability* of the final supplemental EIS to federal, state, and local government representatives and agencies; elected officials; environmental and public interest groups; Native American Tribes; potentially affected landowners and other interested individuals and groups; and newspapers and libraries in the project area. The final supplemental EIS is only available in electronic format. It may be viewed and downloaded from the FERC's website (www.ferc.gov), on the natural gas environmental documents page ([https://www.ferc.gov/industries-data/natural-gas/environent/environmental documents](https://www.ferc.gov/industries-data/natural-gas/environent/environmental%20documents)).
