SUPPLEMENTARY INFORMATION: In accordance with the Paperwork Reduction Act of 1995, BOEM provides the general public and other Federal agencies with an opportunity to comment on new, proposed, revised, and continuing collections of information. This helps BOEM assess the impact of its information collection requirements and minimize the public's reporting burden. It also helps the public understand BOEM's information collection requirements and provide the requested data in the desired format.

BOEM is soliciting comments on the proposed ICR described below. BOEM is especially interested in public comments addressing the following issues: (1) is the collection necessary to the proper functions of BOEM; (2) what can BOEM do to ensure that this information is processed and used in a timely manner; (3) is the burden estimate accurate; (4) how might BOEM enhance the quality, utility, and clarity of the information to be collected; and (5) how might BOEM minimize the burden of this collection on the respondents, including minimizing the burden through the use of information technology?

Comments that you submit in response to this notice are a matter of public record. BOEM will include or summarize each comment in its ICR to OMB for approval of this information collection. You should be aware that your entire comment—including your address, phone number, email address, or other personally identifiable information included in your comment—may be made publicly available at any time. Even if BOEM withholds your personally identifiable information in the context of this ICR, your comment is subject to the Freedom of Information Act (FOIA) (5 U.S.C. 552). Your information will only be withheld if a determination is made that one of the FOIA exemptions to disclosure applies. Such a determination will be made in accordance with the Department of the Interior (DOI)'s FOIA implementing regulations (43 CFR part 2) and applicable law.

In order for BOEM to consider withholding from disclosure your personally identifiable information, you must identify, in a cover letter, any information contained in the submittal of your comments that, if released, would constitute a clearly unwarranted invasion of your personal privacy. You must also briefly describe any possible harmful consequences of the disclosure of information, such as embarrassment, injury, or other harm. Note that BOEM will make available for public inspection, in their entirety, all comments submitted by organizations and businesses, or by individuals identifying themselves as representatives of organizations or businesses.

BOEM protects proprietary information in accordance with FOIA, DOI's implementing regulations (43 CFR. part 2), and 30 CFR 580.70, promulgated pursuant to the Outer Continental Shelf Lands Act (OCS Lands Act) (43 U.S.C. 1352(c)).

Title of Collection: "Operations in the Outer Continental Shelf for Minerals Other than Oil, Gas, and Sulfur."

Abstract: The Outer Continental Shelf Lands Act (43 U.S.C. 1334 and 1337(k)(1)) authorizes the Secretary of the Interior to issue leases on available areas of the U.S. Outer Continental Shelf (OCS) to the highest qualified bidder to develop any mineral resources other than oil, gas, and sulfur. The Act also authorizes the Secretary to issue regulations governing such leasing and all operations under a mineral lease.

The Secretary delegated rulemaking authority to BOEM. BOEM's regulations at 30 CFR part 582 carry out the statutory program by governing such OCS mining operations.

Competitive leasing has not occurred for OCS minerals other than oil, gas, and sulfur for decades. BOEM has not issued a lease since 30 CFR part 582 was first promulgated. Accordingly, BOEM has not collected information under this part of its regulations. However, given the regulatory requirements and the April 24, 2025 Executive Order 14285 "Unleashing America's Offshore Critical Minerals and

Resources,” the potential exists that BOEM may engage in future leasing and require information under this part. Therefore, BOEM seeks OMB renewal of this information collection.

BOEM will use the information required by 30 CFR part 582 to determine if lessees are complying with the regulations for mining minerals other than oil, gas, and sulfur. BOEM will also use the information to ensure orderly resource development; to protect the human, marine, and coastal environments; and to conduct the requisite technical and environmental evaluations that inform BOEM’s decision to approve, disapprove, or require modification of the proposed activities.
