SUPPLEMENTARY INFORMATION:

Scope.-- For purposes of these investigations, Commerce has defined the subject merchandise as active anode material, which is an anode grade graphite material with a graphite minimum purity content of 90 percent carbon by weight, whether containing synthetic graphite, natural graphite, or a blend of synthetic and natural graphite; with or without coating. Subject merchandise may be in the form of powder, dry, liquid, or block form and is covered irrespective of the form in which it enters. Subject merchandise typically has a maximum size of 80 microns when in powder form. Subject merchandise has an energy density of 330 milliamp hours per gram or greater and a degree of graphitization of 80 percent or greater, where graphitization refers to the extent of the graphite crystal structure.

Subject merchandise is covered regardless of whether it is mixed with silicon based active materials, e.g., silicon-oxide (SiOx), silicon-carbon (SiC), or silicon, or additives such as carbon black or carbon nanotubes. Subject merchandise is covered regardless of the combination of compounds that comprise the graphite material. Subject merchandise is covered regardless of whether it is imported independently, as part of a compound, in a battery, as a component of an anode slurry, or in a subassembly of a battery such as an electrode. Only the anode grade graphite material is covered when entered as part of a mixture with silicon based active materials, as part of a compound, in a battery, as a component of an anode slurry, or in a subassembly of a battery such as an electrode.

Background.--The final phase of these investigations is being scheduled pursuant to sections 705(b) and 731(b) of the Tariff Act of 1930 (19 U.S.C. 1671d(b) and 1673d(b)), as a result of affirmative preliminary determinations by Commerce that certain benefits which

constitute subsidies within the meaning of § 703 of the Act (19 U.S.C. 1671b) are being provided to manufacturers, producers, or exporters in China of active anode material, and that such products are being sold in the United States at less than fair value within the meaning of § 733 of the Act (19 U.S.C. 1673b). The investigations were requested in petitions filed on December 18, 2024, by the American Active Anode Material Producers, the members of which are Anovion Technologies, Sanborn, New York; Syrah Technologies LLC, Vidalia, Louisiana; NOVONIX Anode Materials LLC, Chattanooga, Tennessee; Epsilon Advanced Materials, Leland, North Carolina; and SKI US, Inc., Marietta, Georgia.

For further information concerning the conduct of this phase of the investigations, hearing procedures, and rules of general application, consult the Commission's Rules of Practice and Procedure, part 201, subparts A and B (19 CFR part 201), and part 207, subparts A and C (19 CFR part 207).

Participation in the investigations and public service list.--Persons, including industrial users of the subject merchandise and, if the merchandise is sold at the retail level, representative consumer organizations, wishing to participate in the final phase of these investigations as parties must file an entry of appearance with the Secretary to the Commission, as provided in § 201.11 of the Commission's rules, no later than 21 days prior to the hearing date specified in this notice. A party that filed a notice of appearance during the preliminary phase of the investigations need not file an additional notice of appearance during this final phase. The Secretary will maintain a public service list containing the names and addresses of all persons, or their representatives, who are parties to the investigations.

Please note the Secretary's Office will accept only electronic filings during this time. Filings must be made through the Commission's Electronic Document Information System (EDIS, <https://edis.usitc.gov>). No in-person paper-based filings or paper copies of any electronic filings will be accepted until further notice.

Limited disclosure of business proprietary information (BPI) under an administrative protective order (APO) and BPI service list.--Pursuant to § 207.7(a) of the Commission's rules, the Secretary will make BPI gathered in the final phase of these investigations available to authorized applicants under the APO issued in the investigations, provided that the application is made no later than 21 days prior to the hearing date specified in this notice. Authorized applicants must represent interested parties, as defined by 19 U.S.C. 1677(9), who are parties to the investigations. A party granted access to BPI in the preliminary phase of the investigations need not reapply for such access. A separate service list will be maintained by the Secretary for those parties authorized to receive BPI under the APO.

Staff report.--The prehearing staff report in the final phase of these investigations will be placed in the nonpublic record on November 14, 2025, and a public version will be issued thereafter, pursuant to § 207.22 of the Commission's rules.
