II. Discussion

HDI is the holder of Renewed Facility Operating License No. DRP-16 for OCNGS. The license provides, among other things, that the facility is subject to all rules, regulations, and orders of the NRC now or hereafter in effect. The facility consists of a single unit boiling water reactor (BWR) that was utilized for the generation and transmission of electric power using nuclear fission as the source of production. The plant entered commercial operation on December 23, 1969. The reactor was refueled 26 times during operation spanning a period of almost a half-century and was the oldest U.S. BWR at the time of permanent shutdown and defueling in 2018. By letter dated

August 1, 2024 (ADAMS Accession No. ML24214A037), as supplemented by letters dated March 27, 2025 (ADAMS Accession No. ML25086A156), April 29, 2025 (ADAMS Package Accession No. ML25119A267) and May 13, 2025 (ADAMS Accession No. ML25133A131), HDI requested approval of a proposed amendment to the Renewed Facility Operating License DPR-16 for OCNGS to include LTP requirements.

III. Request for Comment and Public Meeting

According to paragraph 50.82(a)(9)(iii) of title 10 of the *Code of Federal Regulations* (10 CFR), after the licensee submits an LTP, the NRC must hold a public meeting near the site. In accordance with 10 CFR 50.82(a)(9)(iii) and 20.1405, upon the receipt of an LTP from a licensee, NRC must publish a notice in the *Federal Register* and solicit comments from affected parties. The purpose of the meeting is for the NRC staff to meet with stakeholders and discuss the NRC's review of the LTP and request public comments on the LTP. In addition, please see the related notice regarding the LTP proposed no significant hazards consideration determination and opportunity to request a hearing and petition to intervene (90 FR 30110, July 8, 2025). The meeting will be held on Wednesday, September 17, 2025, at the Lacey Township Municipal Building Court Room, 818 Lacey Road, Forked River, New Jersey 08731, from 6 p.m. until 9 p.m. ET. Please contact Amy M. Snyder at 301-415-6822 or by email at Amy.Snyder@nrc.gov no later than September 3, 2025, if accommodations or special equipment are needed for you to attend or to provide comments, so that the NRC staff can determine whether the request can be accommodated.

For additional information regarding this meeting see the NRC's Public Meeting Schedule website for information <https://www.nrc.gov/pmns/mtg>. The agenda will be posted no later than 10 days prior to the meeting.

Dated: August 12, 2025.
