Title: Request for Approval to Sell Capital Assets

OMB Control Number: 0572 – 0020

Type of Request: Revision of a currently approved information collection

Abstract: The RUS is a credit agency of the USDA. It makes mortgage loans and loan guarantees to finance electric, telecommunications, and water and waste facilities in rural areas. In addition to providing loans and loan guarantees, one of the Agency's main objectives is to safeguard loan security until the loan is repaid. When a borrower enters into the mortgage agreement with the Agency, all current and future capital assets of the borrower are ordinarily mortgaged or pledged to the Federal Government as security for Agency loans. The Agency's policy on sales of capital assets requires that the sale meet several requirements including the following: (1) the selling price shall be greater than or equal to the fair market value; and (2) the sale shall not jeopardize the repayment of the Agency's loan.

The selling of assets reduces the security and increases the risk to the government. RUS Form 369 allows the borrower to seek agency permission to sell some of its assets. The form collects detailed information regarding the proposed sales of a portion of the borrower's systems. RUS electric utility borrowers complete this form to request RUS approval in order to sell capital assets when the fair market value exceeds 10 percent of the borrower's net utility plant.
