General Description of Reports

The Country Exposure Report (FFIEC 009) is filed quarterly with the agencies and provides information on international claims of U.S. banks, savings associations, Edge and/or Agreement corporations, bank holding companies, savings and loan holding companies, and intermediate holding companies (U.S. banking organizations) that is used for supervisory and analytical purposes. The information is used to monitor the foreign country exposures of reporting institutions to determine the degree of risk in their portfolios and assess the potential risk of loss. The Country Exposure Information Report (FFIEC 009a) is a supplement to the FFIEC 009 and provides publicly available information on material foreign country exposures of U.S. banking organizations that file the FFIEC 009 report. On the FFIEC 009a, reporting institutions provide a list of

countries in which they have lending exposures above 0.75 percent of their total assets or 15 percent of their total capital, whichever is less.
