SUPPLEMENTARY INFORMATION: Under part 211 of title 49 Code of Federal Regulations (CFR), this document provides the public notice that by letter dated June 15, 2025 HVRM petitioned FRA for an extension of a waiver of compliance from certain provisions of the Federal railroad safety regulations contained at 49 CFR part 240 (Qualification and Certification of Locomotive Engineers). FRA assigned the petition Docket Number FRA-2009-0023.

HVRM requests extended relief from 49 CFR 240.201(d), *Implementation*, to continue operating its “engineer for an hour” program on tracks owned by Chesapeake & Indiana Railroad.¹ The program, as HVRM has previously explained, allows non-certified individuals to operate a locomotive under controlled circumstances, supervision, and certain restrictions. In support of its request, HVRM states that the trains used in the program are operated at limited track speed under yard or restricted speed limits.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at www.regulations.gov.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested party desires an opportunity for oral comment and a public hearing, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.

¹ FRA assumes that HVRM requests extended relief from 49 CFR 240.201(d), as it was the relief granted previously in this docket. The regulation was not specified in the June 15, 2025 petition.

Communications received by **[INSERT DATE 30 DAYS AFTER DATE OF PUBLICATION IN THE FEDERAL REGISTER]** will be considered by FRA before final action is taken. Comments received after that date will be considered if practicable.
