Abstract of information available

Weedon Island (8PI1) was a village complex consisting of middens, domiciliary mounds, and a sand burial mound. It is noted as one of the most important sites in Pinellas County, being

excavated formally by archaeologists as well as looters. The mounds are largely destroyed but much of the village remains intact, due to its' proximity to a power plant. Numerous collections, many containing Ancestors, were presented to FLMNH, along with a museum expedition done by William Sears in the 1950s. Weedon Island was previously reported in the 2003 inventory as culturally unaffiliated with an MNI of one and did not report any associated funerary objects. Human remains representing at least five individuals have been identified. The 145 associated funerary objects include fauna, pottery, an awl, and a cobble tool.

Cultural affiliation

Based on the information available and the results of consultation, cultural affiliation is reasonably identified by the geographical location or acquisition history of the human remains and associated funerary objects described in this notice.

Determinations

The FLMNH has determined that:

- The human remains described in this notice represent the physical remains of five individuals of Native American ancestry.
- The 145 objects described in this notice are reasonably believed to have been placed intentionally with or near individual human remains at the time of death or later as part of the death rite or ceremony.
- There is a connection between the human remains and associated funerary objects described in this notice and the Miccosukee Tribe of Indians and the Seminole Tribe of Florida.

Requests for Repatriation

Written requests for repatriation of the human remains and associated funerary objects in this notice must be sent to the authorized representative identified in this notice under ADDRESSES. Requests for repatriation may be submitted by:

1. Any one or more of the Indian Tribes or Native Hawaiian organizations identified in this notice.
2. Any lineal descendant, Indian Tribe, or Native Hawaiian organization not identified in

this notice who shows, by a preponderance of the evidence, that the requestor is a lineal descendant or an Indian Tribe or Native Hawaiian organization with cultural affiliation.

Repatriation of the human remains and associated funerary objects described in this notice to a requestor may occur on or after [INSERT DATE 30 DAYS AFTER DATE OF PUBLICATION IN THE **FEDERAL REGISTER**]. If competing requests for repatriation are received, the FLMNH must determine the most appropriate requestor prior to repatriation. Requests for joint repatriation of the human remains and associated funerary objects are considered a single request and not competing requests. The FLMNH is responsible for sending a copy of this notice to the Indian Tribes and Native Hawaiian organizations identified in this notice.
