#### **Abstract of information available**

A total of 40 cultural items have been requested for repatriation. The 40 unassociated funerary objects consist of olivella shell beads and one bird bone [femur] fragment. These items were collected from a cave southeast of Indian Wells, CA, on April 2, 1920, by invertebrate zoologist S. Stillman Berry, and donated to the Museum in 1985.

#### **Determinations**

The Santa Barbara Museum of Natural History has determined that:

- The 40 unassociated funerary objects described in this notice are reasonably believed to have been placed intentionally with or near human remains, and are connected, either at the time of death or later as part of the death rite or ceremony of a Native American culture according to the Native American traditional knowledge of a lineal descendant, Indian Tribe, or Native Hawaiian organization. The unassociated funerary objects have been identified by a preponderance of the evidence as related to human remains, specific individuals, or families, or removed from a specific burial site or burial area of an individual or individuals with cultural affiliation to an Indian Tribe or Native Hawaiian organization.
- There is a reasonable connection between the cultural items described in this notice and the Agua Caliente Band of Cahuilla Indians of the Agua Caliente Indian Reservation, California; Cabazon Band of Cahuilla Indians (*previously* listed as Cabason Band of Mission Indians, California); Chemehuevi Indian Tribe of the Chemehuevi Reservation, California; Morongo Band of Mission Indians, California; Torres Martinez Desert Cahuilla Indians, California; and the Twenty-Nine Palms Band of Mission Indians of California.

### **Requests for Repatriation**

Additional, written requests for repatriation of the cultural items in this notice must be sent to the authorized representative identified in this notice under ADDRESSES. Requests for repatriation may be submitted by any lineal descendant, Indian Tribe, or Native Hawaiian organization not identified in this notice who shows, by a preponderance of the evidence, that the requestor is a lineal descendant or a culturally affiliated Indian Tribe or Native Hawaiian organization.

Repatriation of the cultural items in this notice to a requestor may occur on or after [INSERT DATE 30 DAYS AFTER DATE OF PUBLICATION IN THE **FEDERAL REGISTER**]. If competing requests for repatriation are received, the Santa Barbara Museum of Natural History must determine the most appropriate requestor prior to repatriation. Requests for

joint repatriation of the cultural items are considered a single request and not competing requests.

The Santa Barbara Museum of Natural History is responsible for sending a copy of this notice to the Indian Tribes and Native Hawaiian organizations identified in this notice and to any other consulting parties.
