Respondents/Affected Public: Researchers, including university and college faculty and students, who use this data for statistical analysis.

Total Estimated Number of Respondents: Approximately 10 new respondents are expected annually to access MCC-funded restricted data.

Frequency: One application for each restricted data package for which access is requested by a respondent.

Estimated Total Annual Burden: 15 hours total.

Estimated Total Annual Cost to Public: There are no costs to respondents other than their time.

Abstract: MCC is committed to providing public access to high-value data collected as part of the development, implementation, and evaluation of MCC-funded foreign assistance programs, while being equally committed to protecting the confidentiality of individuals and organizations from which the data is collected. To achieve these twin aims, MCC publishes de-identified public use files of microdata on its website through the MCC Evidence Platform. In addition, MCC makes restricted data files available in cases where the de-identification efforts for public use files would significantly impair the analytic potential of the data, or where the data contains highly sensitive information that cannot be shared as a public-use file. However, access to restricted data is only granted to users who meet eligibility criteria and agree to terms of access established by MCC, including agreeing to follow strict requirements for maintaining data

confidentiality. The MCC Restricted Data Use Application collects information that is used by MCC and its data steward, the University of Michigan's Interagency Consortium for Political and Social Research (ICPSR), to evaluate whether respondents qualify for access to MCC's restricted data. The application, which is submitted electronically, requires the provision of specific information by the respondent, such as (i) the name, contact information, and CV/Resume/Biosketch for each person that will access the restricted data, (ii) a research proposal describing the need for the data and how it will be used, (iii) evidence of Institutional Review Board approval or exemption of the research proposal, and (iv) a signed restricted data use agreement.
