### Golden Pass LNG Terminal, LLC; Notice Of Availability of the Environmental Assessment for the Proposed Supply Lateral Project

The staff of the Federal Energy Regulatory Commission (FERC or Commission) have prepared an environmental assessment (EA) for the Supply Lateral Project (Project), proposed by Golden Pass LNG Terminal, LLC (Golden Pass LNG) in the above referenced dockets.<sup>1</sup> The Project would consist of approximately 0.22 mile of 42-inch-diameter pipeline supply lateral, a receipt interconnect, two meter station pads, and appurtenant facilities, all located within the Golden Pass LNG property boundary in Jefferson County, Texas. The proposed facilities are designed to facilitate interconnections with one intrastate pipeline and one interstate pipeline and transport up to 2.6 million dekatherms per day to the Golden Pass LNG Terminal with the purpose of providing flexibility and security of feed gas supply.

The EA assesses the potential environmental effects of the construction and operation of the Project in accordance with the requirements of the National Environmental Policy Act (NEPA). FERC staff concludes that approval of the proposed
