Confidential Business Information: Confidential Business Information (CBI) is commercial or financial information that is both customarily and treated as private by its owner. Under the Freedom of Information Act (FOIA) (5 United States Code (U.S.C) 552), CBI is exempt from public disclosure. If your comments responsive to this notice contain commercial or financial information that is customarily treated as private, that you treat as private, and that is relevant or responsive to this notice, it is important that you clearly designate the submitted comments as CBI. Pursuant to 49 Code of Federal Regulations (CFR) § 190.343, you may ask PHMSA to give confidential treatment to information you give to the agency by taking the following steps: (1) mark each page of the original document submission containing CBI as “Confidential”; (2) send PHMSA, along with the original document, a second copy of the original document with the CBI deleted; and (3) explain why the information you are submitting is CBI. Unless you are

notified otherwise, PHMSA will treat such marked submissions as confidential under the FOIA, and they will not be placed in the public docket of this notice. Submissions containing CBI should be sent to Lee Cooper, DOT, PHMSA-PHP-80, 1200 New Jersey Avenue, SE, Washington, D.C. 20590-0001. Any commentary PHMSA receives that is not specifically designated as CBI will be placed in the public docket for this matter.

SUPPLEMENTARY INFORMATION:

PHMSA received a special permit request from TCO, a subsidiary of TC Energy, on January 10, 2025, seeking the addition of a special permit segment extension to be incorporated into special permit PHMSA-2019-0202. The special permit segment extension request is a part of the active permit's special permit inspection area. Special permit PHMSA-2019-0202 allows TCO to deviate from the Federal pipeline safety regulations in 49 CFR §§ 192.611(a), (d), and 192.619(a), where a gas transmission pipeline segment has undergone a change from a Class 1 to a Class 3 location.

Special permit PHMSA-2019-0202 is active and was granted on June 30, 2023;¹ it is effective until June 30, 2033 for seven special permit segments, which include 15,599 feet (approximately 2.954 miles) of the TCO natural gas transmission pipeline system located in the States of Maryland and Virginia. The special permit segment extension is requested for an additional 2,090 feet (approximately 0.396 miles). If granted, the special permit would total 17,689 feet (approximately 3.350 miles).

¹ Special Permit PHMSA-2019-0202 was originally issued on March 31, 2022 and amended on June 30, 2023.

The active special permit segment and requested extension, is as follows:

SPS Number	Status	County, State	Outside Diameter (inches)	Line Name	Length (feet)	Year Installed	Maximum Allowable Operating Pressure (pounds per square inch gauge)
5	Active Segment	Loudoun, VA	30	VC	481	1962	898
	Extension	Loudoun, VA	30	VC	2,090	1962	898

Upon receipt of this request, PHMSA reviewed the final environmental assessment (FEA) and finds that the expansion of the proposed special permit would not result in significant impacts to the human environment. Furthermore, the existing FEA and finding of no significant impact remain adequate, pursuant to the National Environmental Policy Act of 1969, as amended (42 U.S.C. 4321 et seq.). No further environmental assessment is required for this proposal.

TCO's special permit segment extension request, active special permit with conditions, and FEA are available for review and public comment in Docket No. PHMSA-2019-0202. PHMSA invites interested persons to review and submit comments in the docket on the special permit segment extension request. Please submit comments on any potential safety, environmental, and other relevant considerations implicated by the special permit request. Comments may include relevant data.

Before issuing a decision on the special permit request, PHMSA will evaluate all comments received on or before the comments closing date. PHMSA will consider each relevant comment it receives in making its decision to grant or deny this special permit request.

Issued in Washington, D.C., on October 1, 2025, under authority delegated in 49 CFR § 1.97.

Linda Daugherty,

Acting Associate Administrator for Pipeline Safety.
