SUPPLEMENTARY INFORMATION:

PHMSA received a special permit request from Natural Gas Pipeline Company of America (NGPL), a subsidiary of Kinder Morgan, Inc., on August 20, 2025, seeking three special permit segment extensions to be incorporated into special permit PHMSA-2025-0011. The extensions request is a part of the active permit's special permit inspection area. Special permit PHMSA-2025-0011 allows NGPL to deviate from the Federal pipeline safety regulations in 49 CFR §§ 192.611(a), (d), and 192.619(a), where Louisiana Line #2 gas transmission pipeline segments have undergone a change from a Class 1 to a Class 3 location.

Special permit PHMSA-2025-0011 is active and was granted on July 28, 2025, and is effective until July 28, 2035 for 16 special permit segments, which include 54,744 feet (approximately 10.37 miles) of the NGPL natural gas transmission pipeline system located in the State of Texas. The special permit segment extensions are requested for 1,333 feet (approximately 0.25 miles). If granted, the special permit segments would total 56,077 feet (approximately 10.62 miles).

The active special permit segments and requested special permit segment extensions are detailed in updated **Attachment A – NGPL Segment Integrity Information**, published on <https://www.regulations.gov> with this notice. Maps of the

Louisiana Line #2 pipeline are available on the National Pipeline Mapping System (NPMS) at www.npms.phmsa.dot.gov. To search for maps of Louisiana Line #2 select Use Public Map Viewer tool, search by State and county, and use the Query Tool to search by Operator ID to find NGPL pipelines operated in each county. The latitude and longitude global positioning system coordinates in **Attachment A** may be entered into the NPMS Public Map Viewer search box. Proposed modifications of active special permit segments due to extension of segments are as follows:

SPS Number	Status	County, State	Outside Diameter (inches)	Line Name	Length (feet)	Year Installed	Maximum Allowable Operating Pressure (pounds per square inch gauge)
711	Active Segment	Harris, Liberty, TX	30	Louisiana Line #2	6946.22	1978	1,100
	Extension	Liberty, TX	30	Louisiana Line #2	385.78	1978	1,100
717	Active Segment	Liberty, TX	30	Louisiana Line #2	2703.20	1976	1,100
	Extension	Liberty, TX	30	Louisiana Line #2	751.56	1976	1,100
704	Active Segment	Liberty, TX	30	Louisiana Line #2	4143.38	1974	1,100
	Extension	Liberty, TX	30	Louisiana Line #2	195.15	1974	1,100

Upon receipt of this request, PHMSA reviewed the Final Environmental Assessment (FEA) and finds that the expansion of the proposed special permit would not result in significant impacts to the human environment. Furthermore, the existing FEA and Finding of No Significant Impact remain adequate, pursuant to the National Environmental Policy Act of 1969, as amended (42 U.S.C. 4321 et seq.). No further environmental assessment is required for this proposal.

NGPL's special permit segment extensions request, active special permit with conditions, and FEA are available for review and public comment in Docket No. PHMSA-2025-0011. PHMSA invites interested persons to review and submit comments in the docket on the special permit segment extensions request. Please submit comments on any potential safety, environmental, and other relevant considerations implicated by the special permit request. Comments may include relevant data.

Before issuing a decision on the special permit request, PHMSA will evaluate all comments received on or before the comment closing date. PHMSA will consider each relevant comment it receives in making its decision to grant or deny this special permit request.

Issued in Washington, D.C., on October 8, 2025, under authority delegated in 49 CFR § 1.97.

Linda Daugherty,
Acting Associate Administrator for Pipeline Safety.
