Pipeline and Hazardous Materials Safety Administration

[Docket No. PHMSA-2017-0161]

Pipeline Safety: Request for Special Permit; Tennessee Gas Pipeline Company, LLC (TGP)

AGENCY: Pipeline and Hazardous Materials Safety Administration (PHMSA); U.S. Department of Transportation (DOT).

ACTION: Notice.

SUMMARY: PHMSA is publishing this notice to solicit public comments on a request for an extension to a special permit segment to be incorporated into special permit PHMSA-2017-0161 submitted by Tennessee Gas Pipeline Company, LLC (TGP), a subsidiary of Kinder Morgan, Inc. TGP is seeking relief from compliance with certain requirements in the Federal pipeline safety regulations. PHMSA has proposed conditions to ensure that the special permit is not inconsistent with pipeline safety. At the conclusion of the 30-day comment period, PHMSA will review the comments received from this notice as part of its evaluation to grant or deny the special permit request.

DATES: Submit any comments regarding this special permit request by [INSERT DATE 30 DAYS AFTER DATE OF PUBLICATION IN THE FEDERAL REGISTER].

SUPPLEMENTARY INFORMATION:

On August 20, 2025, PHMSA received a special permit request from Tennessee Gas Pipeline Company, LLC (TGP), a subsidiary of Kinder Morgan, Inc., seeking an extension to a special permit segment to be incorporated into special permit PHMSA-2017-0161. The segment extension request is a part of the active permit's Special Permit Inspection Area 1. Special permit PHMSA-2017-0161 allows TGP to deviate from the Federal pipeline safety regulations in 49 CFR §§ 192.611(a) and 192.619(a), where a gas transmission pipeline segment has undergone a change from a Class 1 to a Class 3 location.

Special permit PHMSA-2017-0161 is active and was granted on August 11, 2022 and is effective until August 11, 2032 for three special permit segments, which include 5,545 feet (approximately 1.05 miles) of the TGP natural gas transmission pipeline system located in Kanawha County, West Virginia. The segment extension has been requested for 673 feet (approximately 0.13 miles). If granted, the special permit segments would total 6,218 feet (approximately 1.18 miles).

The special permit segments, including the requested modifications, are detailed in updated **Attachment A – Segment Integrity Information**. Proposed modifications due to this request are as follows:

SPS Number	Status	County, State	Outside Diameter (inches)	Line Name	Length (feet)	Year Installed	Maximum Allowable Operating Pressure (pounds per square inch gauge)
452	Active Segment	Kanawha, WV	20	100-1	1,177	1984	936
	Extension	Kanawha, WV	20	100-1	1,850	1984	936

Upon receipt of this request, PHMSA reviewed the final environmental assessment (FEA) and finds that the expansion of the proposed special permit would not result in significant impacts to the human environment. Furthermore, the existing FEA and finding of no significant impact remain adequate pursuant to the National Environmental Policy Act of 1969, as amended (42 U.S.C. § 4321 et seq.). No further environmental assessment is required for this proposed extension.

TGP’s request for an extension to a special permit segment, active special permit with conditions, and associated environmental document are available for review and public comment in Docket No. PHMSA-2017-0161. PHMSA invites interested persons to review and submit comments in the docket on this request for modification of the special permit. Please submit comments on any potential safety, environmental, and other relevant considerations implicated by the special permit request. Comments may include relevant data.

Before issuing a decision on the special permit request, PHMSA will evaluate all comments received on or before the comment closing date. PHMSA will consider each relevant comment it receives in making its decision to grant or deny this special permit request.

Issued in Washington, D.C., on November 7, 2025, under authority delegated in 49 CFR § 1.97.

Linda Daugherty,

Acting Associate Administrator for Pipeline Safety.
