II. Legal Basis

FMCSA has authority under 49 U.S.C. 31136(e) and 31315(b) to grant exemptions from the Federal Motor Carrier Safety Regulations. FMCSA must publish a notice of each exemption request in the Federal Register (49 CFR 381.315(a)). The Agency must provide the public an opportunity to inspect the information relevant to the application, including the applicant’s safety analysis. The Agency must provide an opportunity for public comment on the request.

The Agency reviews the application, safety analyses, and public comments submitted and determines whether granting the exemption would likely achieve a level of safety equivalent to, or greater than, the level that would be achieved absent such exemption, pursuant to the standard set forth in 49 U.S.C. 31315(b)(1). The Agency must publish its decision in the Federal Register (49 CFR 381.315(b)). If granted, the notice will identify the regulatory provision(s) from which the applicant will be exempt, the effective period, and all terms and conditions of the exemption (49 CFR 381.315(c)(1)).

If the exemption is denied, the notice will explain the reason for the denial (49 CFR 381.315(c)(2)). The exemption may be renewed (49 CFR 381.300(b)).

III. Applicant's Request

Current Regulatory Requirements

Under 49 CFR 383.23, no person shall operate a commercial motor vehicle (CMV) without having taken and passed both knowledge and driving skills tests for a commercial learner's permit or CDL for the CMV that person operates or expects to operate that meet the Federal standards contained in subparts F, G, and H of Part 383. Under 49 CFR 395.8(a)(1)(i), drivers required to prepare records of duty status must do so using ELDs. Under 49 CFR 395.8(a)(1)(ii)(A)(I), a motor carrier may allow its drivers to record their duty status manually, rather than use an ELD, if the driver is operating a CMV "[i]n a manner requiring completion of a record of duty status on not more than 8 days within any 30-day period."

Applicant's Request

Project Gap is a food pantry and emergency supply program operated by Diamond Excursions Ladies Edition a 501(c)(3) tax-exempt organization. Project Gap delivers and picks up donated goods—including food, water, hygiene items, and essential supplies—for underserved communities and areas affected by natural disasters. Unpaid, volunteer drivers conduct all transportation. According to Project Gap, the vehicle use is limited to donation collection, community distribution events, and disaster relief missions, some in interstate commerce. Project Gap states that these trips are infrequent and mission specific. Project Gap confirmed to FMCSA that its trips exceed 8 days in a 30-day period, so it is not eligible for the exception in 49 CFR 395.8(a)(1)(ii)(A)(I). Project Gap states that compliance with the CDL requirements in 49 CFR part 383 and the ELD requirements in 49 CFR part 395 pose significant burdens on Project Gap's

ability to serve affected communities, particularly during emergencies and natural disasters.

Applicant's Equivalent Level of Safety

Project Gap states that it is committed to operating safely and responsibly. It says that all drivers are trained and insured and comply with medical and safety screenings. These drivers, however, do not have CDLs. Project Gap states that it maintains detailed records of vehicle use, routes, and trip purposes.

A copy of the applicant's application for exemptions is available for review in the docket for this notice.

IV. Request for Comments

In accordance with 49 U.S.C. 31315(b), FMCSA requests public comment from all interested persons on Project Gap's application for exemptions from the CDL requirements in 49 CFR 383.23 and the ELD requirements in 49 CFR 395.8(a)(1)(i). All comments received before the close of business on the comment closing date will be considered and will be available for examination in the docket at the location listed under the Addresses section of this notice. Comments received after the comment closing date will be filed in the public docket and will be considered to the extent practicable. In addition to late comments, FMCSA will also continue to file, in the public docket, relevant information that becomes available after the comment closing date. Interested persons should continue to examine the public docket for new material.
