[Docket No. CP25-530-000]

Texas Eastern Transmission, LP

### Notice of Schedule for the Preparation of an Environmental Assessment for the Danville Compressor Station Replacement Project

On August 1, 2025, Texas Eastern Transmission, LP (Texas Eastern) filed an application in Docket No. CP25-530-000 requesting a Certificate of Public Convenience and Necessity pursuant to Section 7(c) of the Natural Gas Act (NGA) and an Authorization pursuant to Section 7(b) of the NGA to construct, operate, and abandon certain natural gas pipeline facilities. The proposed project is known as the Danville Compressor Station Replacement Project (Project), and would replace 13 aging compressor units with three modern units in Lincoln County, Kentucky.

On August 15, 2025, the Federal Energy Regulatory Commission (Commission or FERC) issued its Notice of Application for the Project. Among other things, that notice alerted agencies issuing federal authorizations of the requirement to complete all necessary reviews and to reach a final decision on a request for a federal authorization within 90 days of the date of issuance of the Commission staff's environmental document for the Project.

This notice identifies Commission staff’s intention to prepare an environmental assessment (EA) for the Project and the planned schedule for the completion of the environmental review.<sup>1</sup>
