Proposed collection; 60-day comment request

Application and Impact of Clinical Research Training on Healthcare Professionals in Academia and Clinical Research (Office of the Director)

AGENCY: National Institutes of Health, HHS.

ACTION: Notice.

SUMMARY: In compliance with the requirement of the Paperwork Reduction Act of 1995 to provide opportunity for public comment on proposed data collection projects, the Office of Clinical Research Education and Collaboration Outreach (OCRECO), Office of Intramural Research (OIR), National Institutes of Health, will publish periodic summaries of proposed projects to be submitted to the Office of Management and Budget (OMB) for review and approval.

DATES: Comments regarding this information collection are best assured of having their full effect if received within 60 days of the date of this publication.

FOR FURTHER INFORMATION CONTACT: To obtain a copy of the data collection plans and instruments, submit comments in writing, or request more information on the proposed project, contact: Dr. Ahmed M. Gharib, Program Director, Office of Clinical Research Education and Collaboration Outreach, NIH Office of the Director, Building 1, Room 201, MSC-0155, Bethesda, Maryland, 20892 or e-mail your request, including your address to: ocreco-education@mail.nih.gov. Formal requests for additional plans and instruments must be requested in writing.

SUPPLEMENTARY INFORMATION: Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 requires: written comments and/or suggestions from the public and affected

agencies are invited to address one or more of the following points: (1) Whether the proposed collection of information is necessary for the proper performance of the function of the agency, including whether the information will have practical utility; (2) The accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) Ways to enhance the quality, utility, and clarity of the information to be collected; and (4) Ways to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Proposed Collection Title: Application and Impact of Clinical Research Training on Healthcare Professionals in Academia and Clinical Research, 0925-0764, exp., date 07/31/2027, Revision, Office of Clinical Research Education and Collaboration Outreach (OCRECO), Office of Intramural Research (OIR), National Institutes of Health (NIH), Office of the Director (OD).

Need and Use of Information Collection: The purpose of these revised surveys is to continue to assess the long-term impact and outcomes of clinical research training programs provided by the Office of Clinical Research Education and Collaboration Outreach, located in the Office of Intramural Research, over a ten-year follow-up period. The information received from respondents will continue to provide insight on the following: impact of the courses on (a) promotion of professional competence, (b) research productivity and independence, and (c) future career development within clinical, translational and academic research settings. These surveys will continue to provide preliminary data and guidance in 1) developing recommendations for collecting outcomes to assess the effectiveness of the training courses, and 2) tracking the impact of the curriculum on participants' ability to perform successfully in academic, non-academic, research, and non-research settings.

This revision request is comprised of the addition of 4 new surveys: two application surveys for two new certificate programs and two generic/template surveys for additional courses

as part of the clinical research education programs of the office. The clinical research education programs include: the Introduction to the Principles and Practice of Clinical Research and Principles of Clinical Pharmacology, Sabbatical in Clinical Research Management, the NIH Summer Course in Clinical and Translational Research, the Ethical and Regulatory Aspects of Clinical Research Course (Asynchronous/Online), the Clinical Research Curriculum Certificate Program, the Radiology Research Certificate Program, and additional future courses.

OMB revision request approval is requested for 3 years. There are no costs to respondents other than their time. The total estimated annualized burden hours are 2,723.
