[Project No. 2212-059]

Domtar Paper Company, LLC; Notice of Availability of Environmental Assessment

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission or FERC) regulations, 18 CFR Part 380, Commission staff reviewed Domtar Paper Company, LLC's application for non-capacity amendment of the Rothschild Hydroelectric Project No. 2212 and have prepared an Environmental Assessment (EA) for the project.¹ The licensee proposes to replace the existing timber crib spillway section with two hydraulically actuated overhead hinged crest gates mounted on a reinforced concrete crest structure with reinforced concrete piers. Additionally, a reinforced concrete labyrinth crest structure and reinforced concrete stilling basins would be constructed for both spillways. The project is located on the Wisconsin River in Marathon County, Wisconsin and does not occupy federal lands.

The EA contains Commission staff's analysis of the potential environmental effects of the proposed action, alternatives to the proposed action, and concludes that the proposed amendment, with appropriate environmental measures, would not constitute a major federal action that would significantly affect the quality of the human environment.
