**SUPPLEMENTARY INFORMATION:**

**History**

The FAA published a final rule in the *Federal Register* (90 FR 54228; November 26, 2025), which modified the Class E airspace area extending upward from 700 feet or more above the surface and Class E airspace area designated as an extension to a Class D or Class E surface area at KOA. Subsequent to publication, and following a recent survey, the FAA amended the geographic coordinates for KOA. Accordingly, the updated geographic location will now serve as the point of origin from which the Class E airspace area boundaries are derived, no longer requiring reference to the Point in Space Alpha fix that appeared in the KOA's airspace legal description in the final rule. This action is administrative only and corrects the coordinates.
