Background

OPM is collecting service use and cost data from FEHB and PSHB Carriers, including medical

claims, pharmacy claims, encounter data, and provider data. This data will enable OPM to

oversee health benefits programs and ensure they provide competitive, quality, and affordable

plans. OPM requires Carriers to report necessary information and permit audits and examinations

to manage the FEHB Program effectively. The Health Insurance Portability and Accountability

Act of 1996 (HIPAA) Privacy Rule permits covered entities, including carriers, to disclose

protected health information (PHI), including service use and cost data, to health oversight

agencies, such as OPM, for oversight activities authorized under 45 CFR 165.512(d)(1).
