The total estimated program cost was \$950 million. Major Defense Equipment (MDE) constituted \$425 million of this total.

This transmittal notifies: 1) replacement of the previously notified non-MDE EGI with

SAASM for, twenty-four (24) MDE EGI with SAASM; and 2) replacement of the previously notified twenty (20) MDE T-700-GE-401C engines for twenty (20) MDE T-700-401D engines. The following non-MDE is also included in this notification: Infrared Zoom Laser Illuminator Designators (IZLID); AN/PYQ-10 Simple Key Loaders (SKL); and other related elements of logistics and program support. The estimated MDE value will increase by \$50 million to a revised \$475 million. However, this increase will not cause an increase in the estimated total case value, which will remain \$950 million.

- (iv) Significance: This notification is being provided as the additional items were not enumerated in the original notification. The proposed sale will improve Spain's capability to meet current and future threats. This proposed sale will provide the capability to perform anti-surface and anti-submarine warfare missions along with the ability to perform secondary missions including vertical replenishment, search and rescue, and communications relay, and will bolster the Spanish Navy's ability to support NATO and remain interoperable with the U.S. and the NATO alliance.
- (v) Justification: This proposed sale will support the foreign policy and national security objectives of the U.S. by helping to improve the security of a NATO Ally which is an important force for political stability and economic progress in Europe.
- (vi) Sensitivity of Technology:

The Sensitivity of Technology Statement contained in the original notification applies to items reported here.

The highest level of classification of defense articles, components, and services included in this potential sale is SECRET.
