

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-104357; File No. SR-CboeBZX-2025-155]

**Self-Regulatory Organizations; Cboe BZX Exchange, Inc.; Notice of Filing and Immediate Effectiveness of a Proposed Rule Change to Amend its Fee Schedule**

December 10, 2025.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”)<sup>1</sup> and Rule 19b-4 thereunder,<sup>2</sup> notice is hereby given that on December 1, 2025, Cboe BZX Exchange, Inc. (the “Exchange” or “BZX”) filed with the Securities and Exchange Commission (“Commission”) the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Rule Change

Cboe BZX Exchange, Inc. (the “Exchange” or “BZX”) proposes to amend its Fees Schedule with respect to the Customer Penny Add Volume Tier program. The text of the proposed rule change is provided in Exhibit 5.

The text of the proposed rule change is also available on the Commission’s website (<https://www.sec.gov/rules/sro.shtml>), the Exchange’s website ([https://www.cboe.com/us/equities/regulation/rule\\_filings/bzx/](https://www.cboe.com/us/equities/regulation/rule_filings/bzx/)), and at the principal office of the Exchange.

II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the

---

<sup>1</sup> 15 U.S.C. 78s(b)(1).

<sup>2</sup> 17 CFR 240.19b-4.

proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and the Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to amend its Fee Schedule, effective December 1, 2025.

The Exchange first notes that it operates in a highly competitive market in which market participants can readily direct order flow to competing venues if they deem fee levels at a particular venue to be excessive or incentives to be insufficient. More specifically, the Exchange is only one of 18 options venues to which market participants may direct their order flow. Based on publicly available information, no single options exchange has more than 15% of the market share.<sup>3</sup> Thus, in such a low-concentrated and highly competitive market, no single options exchange possesses significant pricing power in the execution of option order flow. The Exchange believes that the ever-shifting market share among the exchanges from month to month demonstrates that market participants can shift order flow or discontinue to reduce use of certain categories of products in response to fee changes. Accordingly, competitive forces constrain the Exchange's transaction fees, and market participants can readily trade on competing venues if they deem pricing levels at those other venues to be more favorable. In response to competitive pricing, the Exchange, like other options exchanges, offers rebates and assesses fees for certain order types executed on or routed through the Exchange.

The Exchange's Fees Schedule sets forth standard rebates and rates applied per contract. For example, the Exchange provides a rebate of \$0.25 per contract for Customer orders that add liquidity in Penny Securities, yielding fee code PY. Additionally, in response to the competitive environment, the Exchange also offers tiered pricing, which provides Members opportunities to

---

<sup>3</sup> See Cboe Global Markets U.S. Options Monthly Market Volume Summary (November 24, 2025), available at [https://markets.cboe.com/us/options/market\\_statistics/](https://markets.cboe.com/us/options/market_statistics/).

qualify for higher rebates or reduced fees where certain volume criteria and thresholds are met. Tiered pricing provides an incremental incentive for Members to strive for higher tier levels, which provides increasingly higher benefits or discounts for satisfying increasingly more stringent criteria.

The Exchange currently offers six Customer Penny Add Volume Tiers (“Customer Penny Add Tiers”) under footnote 1 of the Fee Schedule which provide rebates between \$0.35 and \$0.52 per contract for qualifying Customer orders which meet certain add liquidity thresholds and yield fee code PY.<sup>4</sup> Currently, the Customer Penny Add Tiers include one Customer Cross-Asset Add Tier, which requires participation on the Exchange’s equities platform (“BZX Equities”). Under the Customer Cross-Asset Add Tier,<sup>5</sup> the Exchange provides a rebate of \$0.50 per contract where a Member has (1) an ADAV<sup>6</sup> in Simple Customer order  $\geq 0.50\%$  of average OCV;<sup>7</sup> and (2) on BZX Equities an ADAV  $\geq 0.35\%$  of average TCV,<sup>11</sup> excluding sub-dollar securities.

The Exchange proposes to update the Customer Penny Add Tiers by adopting a new Customer Cross-Asset Add Tier 2, which requires participation on BZX Equities. Under the proposed tier, the Exchange would provide a rebate of \$0.52 per contract where a Member has (1) an ADAV<sup>8</sup> in Simple Market-Maker order  $\geq 0.25\%$  of average OCV;<sup>9</sup> and (2) on BZX Equities an ADAV  $\geq 0.45\%$  of average TCV,<sup>11</sup> excluding sub-dollar securities.

---

<sup>4</sup> Fee Code “PY” is appended to Customer Penny orders that add liquidity.

<sup>5</sup> As part of the proposed change, the Exchange proposes to rename this Customer Cross-Asset Add Tier as “Customer Cross-Asset Add Tier 1.”

<sup>6</sup> "ADAV" means average daily added volume (in shares) calculated as the number of contracts added.

<sup>7</sup> "OCC Customer Volume" or "OCV" means the total equity and ETF options volume that clears in the Customer range at the Options Clearing Corporation ("OCC") for the month for which the fees apply, excluding volume on any day that the Exchange experiences an Exchange System Disruption and on any day with a scheduled early market close. Average OCV is the average daily OCV for the month (i.e., total OCV divided by the number of trading days in the month); for example, in a month with 20 trading days, if OCV is 1,040,000,000, the average OCV would be 1,040,000,000/20, or 52,000,000.

<sup>8</sup> "ADAV" means average daily added volume (in shares) calculated as the number of contracts added.

<sup>9</sup> "OCC Customer Volume" or "OCV" means the total equity and ETF options volume that clears in the Customer range at the Options Clearing Corporation ("OCC") for the month for which the fees apply, excluding volume on any day that the Exchange experiences an Exchange System Disruption and on any day with a scheduled early market close. Average OCV is the average daily OCV for the month (i.e.,

The required criteria and corresponding rebates for current Tiers 1 through 5 and Customer Cross-Asset Add Tier 1 remain unchanged.

## 2. Statutory Basis

The Exchange believes the proposed rule change is consistent with the Securities Exchange Act of 1934 (the “Act”) and the rules and regulations thereunder applicable to the Exchange and, in particular, the requirements of Section 6(b) of the Act.<sup>10</sup> Specifically, the Exchange believes the proposed rule change is consistent with the Section 6(b)(5)<sup>11</sup> requirements that the rules of an exchange be designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in regulating, clearing, settling, processing information with respect to, and facilitating transactions in securities, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general, to protect investors and the public interest. Additionally, the Exchange believes the proposed rule change is consistent with the Section 6(b)(5)<sup>12</sup> requirement that the rules of an exchange not be designed to permit unfair discrimination between customers, issuers, brokers, or dealers. The Exchange also believes the proposed rule change is consistent with Section 6(b)(4) of the Act,<sup>13</sup> which requires that Exchange rules provide for the equitable allocation of reasonable dues, fees, and other charges among its Members and other persons using its facilities.

As noted above, the Exchange operates in a highly competitive market. The Exchange is only one of several options venues to which market participants may direct their order flow, and it represents a small percentage of the overall market. Competing options exchanges offer similar

---

total OCV divided by the number of trading days in the month); for example, in a month with 20 trading days, if OCV is 1,040,000,000, the average OCV would be 1,040,000,000/20, or 52,000,000.

<sup>10</sup> 15 U.S.C. 78f(b).

<sup>11</sup> 15 U.S.C. 78f(b)(5).

<sup>12</sup> Id.

<sup>13</sup> 15 U.S.C. 78f(b)(4).

tiered pricing structures to that of the Exchange, including schedules of rebates and fees that apply based upon Members achieving certain volume and/or growth thresholds.

The Exchange believes the proposed change to the Customer Penny Add Tiers is reasonable because it provides an additional opportunity for Members to receive a rebate by providing alternative criteria for which they can reach. In particular, the Exchange believes the proposed Customer Penny Add Tier 2 is a reasonable means to encourage Members to increase their liquidity on the Exchange and also their participation on BZX Equities. Further, rebates that are designed to incentivize add volume order flow may increase transactions on the Exchange, which the Exchange believes incentivizes liquidity providers to submit additional liquidity and execution opportunities. As noted above, an overall increase in activity deepens the Exchange's liquidity pool, offers additional cost savings, supports the quality of price discovery, promotes market transparency and improves market quality for all investors. The Exchange believes that adopting tiers with alternative criteria to the existing Customer Penny Add Tiers may encourage Members to increase their order flow on BZX Options and Equities.

For example, the proposed Customer Cross-Asset Tier 2 would provide an opportunity for Members who have an ADAV in Simple Market Maker orders of at least 0.25% of average OCV, but less than an ADAV in Simple Customer orders of at least 0.20% of average OCV (the requirement under current Tier 3), to receive a higher rebate than they may currently receive, if they also meet the threshold requirements based on BZX Equities participation. Similarly, for Members that participate on both BZX Options and Equities, and do not currently meet the 0.50% ADAV in Customer volume threshold under current Customer Cross-Asset Add Tier, but can or do meet the proposed equities threshold, the proposed tier may incentivize those participants to grow their Market-Maker options volume in order to receive enhanced rebates. The Exchange notes that increased Market-Maker activity, particularly, facilitates tighter spreads and an increase in overall liquidity provider activity, both of which signal additional corresponding increase in order flow from other market participants, contributing towards a

robust, well-balanced market ecosystem. Indeed, increased overall order flow benefits investors across both the Exchange's options and equities platforms by continuing to deepen the Exchange's liquidity pool, potentially providing even greater execution incentives and opportunities, offering additional flexibility for all investors to enjoy cost savings, supporting the quality of price discovery, promoting market transparency and improving investor protection. The Exchange also believes that proposed enhanced rebate is reasonable based on the difficulty of satisfying the tier's criteria and ensures the proposed rebate and thresholds appropriately reflect the incremental difficulty to achieve the existing Customer Penny Add Tiers.

The proposed enhanced rebate amounts also do not represent a significant departure from the enhanced rebates currently offered under the Exchange's existing Customer Penny Add Tiers. Indeed, the proposed enhanced rebate amount under the proposed Customer Cross-Asset Add Tier 2 (\$0.52) is incrementally higher than current Tiers 1, 2, 3, and 4 (\$0.35, \$0.47, \$0.49, and \$0.50 respectively), which the Exchange believes offer slightly less stringent criteria than the proposed Customer Cross-Asset Add Tier 2, but is the same as the rebate offered under existing Tier 5 (\$0.52), which the Exchange believes reflects a similar level of difficulty but using alternative types of criteria. Finally, the proposed enhanced rebate amount under the proposed Customer Cross-Asset Tier 2 (\$0.52) is incrementally higher than the rebate offered under existing Customer Cross-Asset Add Tier 1 (\$0.50), which the Exchange believes is less stringent than the proposed criteria than the proposed Customer Cross-Asset Add Tier 2. The Exchange also notes that the proposed rebates remain within the range of the enhanced rebates offered under the current Customer Penny Add Tiers (i.e., \$0.35 - \$0.52).

The Exchange believes that the proposal represents an equitable allocation of fees and is not unfairly discriminatory because it applies uniformly to all Market-Makers. While the Exchange has no way of knowing whether this proposed rule change would definitively result in any particular Market-Maker qualifying for the proposed tier, the Exchange anticipates that approximately two Market-Makers will be able to compete for and achieve the proposed criteria

of the proposed Cross-Asset Add Tier 2; however, the proposed tier is open to any Market-Maker that satisfies the tier's criteria. The Exchange believes the proposed tier could provide an incentive for other Members to submit additional liquidity on BZX Options and Equities to qualify for the proposed enhanced rebate. To the extent a Member participates on the Exchange but not on BZX Equities, the Exchange does believe that the proposal is still reasonable, equitably allocated and non-discriminatory with respect to such Member based on the overall benefit to the Exchange resulting from the success of BZX Equities. Particularly, the Exchange believes such success allows the Exchange to continue to provide and potentially expand its existing incentive programs to the benefit of all participants on the Exchange, whether they participate on BZX Equities or not. The proposed pricing program is also fair and equitable in that membership in BZX Equities is available to all market participants, which would provide them with access to the benefits on BZX Equities provided by the proposed change, even where a member of BZX Equities is not necessarily eligible for the proposed enhanced rebates on the Exchange.

The Exchange also notes that it does not believe the proposed changes will adversely impact any Member's pricing or ability to qualify for other tiers. Rather, should a Member not meet the proposed criteria, the Member will merely not receive the proposed enhanced rebate, and has six alternative choices to aim to achieve under the Customer Penny Add Tiers.

**B. Self-Regulatory Organization's Statement on Burden on Competition**

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. The Exchange does not believe the proposed changes will impose any burden on intramarket competition. Particularly, the proposed changes to the Customer Penny Add Volume Tiers apply uniformly to all Market-Makers, who will have the opportunity to meet the proposed tier's criteria and receive the corresponding enhanced rebate for the tier if such criteria is met. As discussed above, increased Market-Maker activity, particularly, facilitates tighter spreads and an

increase in overall liquidity provider activity, both of which signal additional corresponding increase in order flow from other market participants, contributing towards a robust, well-balanced market ecosystem. Indeed, increased overall order flow benefits investors across both the Exchange's options and equities platforms by continuing to deepen the Exchange's liquidity pool, potentially providing even greater execution incentives and opportunities, offering additional flexibility for all investors to enjoy cost savings, supporting the quality of price discovery, promoting market transparency and improving investor protection.

As discussed above, to the extent a Member participates on the Exchange but not on BZX Equities, the Exchange notes that the proposed changes can provide an overall benefit to the Exchange resulting from the success of BZX Equities. Such success enables the Exchange to continue to provide and potentially expand its existing incentive programs to the benefit of all participants on the Exchange, whether they participate on BZX Equities or not. The proposed pricing program is also fair and equitable in that membership in BZX Equities is available to all market participants. Additionally, the proposed change is designed to attract additional order flow to the Exchange and BZX Equities. Greater liquidity benefits all market participants on the Exchange by providing more trading opportunities and encourages Members to send orders, thereby contributing to robust levels of liquidity, which benefits all market participant. As a result, the Exchange believes that the proposed change furthers the Commission's goal in adopting Regulation NMS of fostering competition among orders, which promotes "more efficient pricing of individual stocks for all types of orders, large and small."<sup>14</sup>

The Exchange also does not believe that the proposed rule change will impose any burden on intermarket competition that is not necessary or appropriate in furtherance of the purposes of the Act. As previously discussed, the Exchange operates in a highly competitive market. Members have numerous alternative venues that they may participate on and direct their

<sup>14</sup> Securities Exchange Act Release No. 51808, 70 FR 37495, 37498-99 (June 29, 2005) (S7-10-04) (Final Rule).

order flow, including 17 other options exchanges and off-exchange venues. Additionally, the Exchange represents a small percentage of the overall market. Based on publicly available information, no single options exchange has more than 15% of the market share.<sup>15</sup> Therefore, no exchange possesses significant pricing power in the execution of option order flow. Indeed, participants can readily choose to send their orders to other exchange and off-exchange venues if they deem fee levels at those other venues to be more favorable. Moreover, the Commission has repeatedly expressed its preference for competition over regulatory intervention in determining prices, products, and services in the securities markets. Specifically, in Regulation NMS, the Commission highlighted the importance of market forces in determining prices and SRO revenues and, also, recognized that current regulation of the market system “has been remarkably successful in promoting market competition in its broader forms that are most important to investors and listed companies.”<sup>16</sup> The fact that this market is competitive has also long been recognized by the courts. In *NetCoalition v. Securities and Exchange Commission*, the D.C. Circuit stated as follows: “[n]o one disputes that competition for order flow is ‘fierce.’ ... As the SEC explained, ‘[i]n the U.S. national market system, buyers and sellers of securities, and the broker-dealers that act as their order-routing agents, have a wide range of choices of where to route orders for execution’; [and] ‘no exchange can afford to take its market share percentages for granted’ because ‘no exchange possesses a monopoly, regulatory or otherwise, in the execution of order flow from broker dealers’ ....”<sup>17</sup> Accordingly, the Exchange does not believe its proposed fee change imposes any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization’s Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others

---

<sup>15</sup> See Cboe Global Markets U.S. Options Monthly Market Volume Summary (November 24, 2025), available at [https://markets.cboe.com/us/options/market\\_statistics/](https://markets.cboe.com/us/options/market_statistics/).

<sup>16</sup> See Securities Exchange Act Release No. 51808 (June 9, 2005), 70 FR 37496, 37499 (June 29, 2005).

<sup>17</sup> *NetCoalition v. SEC*, 615 F.3d 525, 539 (D.C. Cir. 2010) (quoting Securities Exchange Act Release No. 59039 (December 2, 2008), 73 FR 74770, 74782-83 (December 9, 2008) (SR-NYSEArca-2006-21)).

The Exchange neither solicited nor received comments on the proposed rule change.

### III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A) of the Act<sup>18</sup> and paragraph (f) of Rule 19b-4<sup>19</sup> thereunder. At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission will institute proceedings to determine whether the proposed rule change should be approved or disapproved.

### IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

#### Electronic Comments:

- Use the Commission's internet comment form (<https://www.sec.gov/rules/sro.shtml>); or
- Send an email to [rule-comments@sec.gov](mailto:rule-comments@sec.gov). Please include file number SR-CboeBZX-2025-155 on the subject line.

#### Paper Comments:

- Send paper comments in triplicate to Secretary, Securities and Exchange Commission, 100 F Street NE, Washington, DC 20549-1090.

All submissions should refer to file number SR-CboeBZX-2025-155. This file number should be included on the subject line if email is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's internet website (<https://www.sec.gov/rules/sro.shtml>).

---

<sup>18</sup> 15 U.S.C. 78s(b)(3)(A).

<sup>19</sup> 17 CFR 240.19b-4(f).

Copies of the filing will be available for inspection and copying at the principal office of the Exchange. Do not include personal identifiable information in submissions; you should submit only information that you wish to make available publicly. We may redact in part or withhold entirely from publication submitted material that is obscene or subject to copyright protection. All submissions should refer to file number SR-CboeBZX-2025-155 and should be submitted on or before [INSERT DATE 21 DAYS AFTER DATE OF PUBLICATION IN THE *FEDERAL REGISTER*].

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.<sup>20</sup>

**Sherry R. Haywood,**

*Assistant Secretary.*
