SUPPLEMENTARY INFORMATION:

I. Abstract

The Virtual Guest Program exists to leverage the excitement around launches and milestones to widely disseminate information about Earth and space phenomena through the sharing of information about research on launches, mission objectives, public engagement activities

(coloring pages, social media filters) and the like. The program provides registration opportunities for individuals and watch parties so that NASA may provide them the specific information they are interested in receiving and to share a detailed slice of the NASA efforts in carrying out the other portions of the Space Act of 1958. By learning the information from the plans of Watch Party organizers, NASA can best provide appropriate resources and share information about its activities and results.

NASA is committed to effectively performing the Agency's communication function in accordance with the Space Act Section 203 (a)(3) to "provide for the widest practicable and appropriate dissemination of information concerning its activities and the results thereof," and to enhance public understanding of, and participation in, the nation's aeronautical and space program in accordance with the NASA Strategic Plan.
