### **Federal Energy Regulatory Commission**

**[Project No. 15230-002]**

#### **Pike Island Hydropower Corporation**

#### **Notice Of Intent To Prepare An Environmental Assessment**

On May 14, 2024, Pike Island Hydropower Corporation filed a license application for the proposed 19.999-megawatt Pike Island Hydroelectric Project No. 15230 (project). The proposed project would be located at the U.S. Army Corps of Engineers' (Corps) Pike Island Locks and Dam on the Ohio River in Belmont County, Ohio and Ohio County, West Virginia. The proposed project would occupy 4.35 acres of federal land administered by the Corps.

In accordance with the Commission's regulations, on September 25, 2025, Commission staff issued a notice that the project was ready for environmental analysis (REA Notice). Based on the information in the record, including comments filed on the REA Notice, staff does not anticipate that licensing the project would constitute a major federal action significantly affecting the quality of the human environment. Therefore, staff intends to prepare an Environmental Assessment (EA) on the application to license the project.<sup>1</sup> The EA will be issued and circulated for review by all interested parties. All comments filed on the EA will be analyzed by staff and considered in the Commission's final licensing decision.
