SUPPLEMENTARY INFORMATION: This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA. Abstract of information available

Human remains representing, at least, four individuals have been identified from the Calovich Mound site (14WY7) in Wyandotte County, KS (UBS 1991-72). The seven associated funerary objects include a bone bead, shell fragments, a rock, and animal bone. This Middle Ceramic village and burial site among the Missouri River bluffs was excavated in 1960 and then

later assessed by KSHS in the 1970s. Human remains and funerary objects were removed from backdirt piles left by looter pits. Around this time, a nearby landowner removed teeth and a bone bead from the site and gave them to KSHS. To our knowledge, no hazardous substances were used to treat the human remains or associated funerary objects.

Cultural affiliation

Based on the information available and the results of consultation, cultural affiliation is reasonably identified by the geographical location or acquisition history of the human remains and associated funerary objects described in this notice.

Determinations

The KSHS has determined that:

- The human remains described in this notice represent the physical remains of four individuals of Native American ancestry.
- The seven objects described in this notice are reasonably believed to have been placed intentionally with or near individual human remains at the time of death or later as part of the death rite or ceremony.
- There is a connection between the human remains and associated funerary objects described in this notice and the Kaw Nation, Oklahoma and the Pawnee Nation of Oklahoma.

Requests for Repatriation

Written requests for repatriation of the human remains and associated funerary objects in this notice must be sent to the authorized representative identified in this notice under ADDRESSES. Requests for repatriation may be submitted by:

1. Any one or more of the Indian Tribes or Native Hawaiian organizations identified in this notice.
2. Any lineal descendant, Indian Tribe, or Native Hawaiian organization not identified in this notice who shows, by a preponderance of the evidence, that the requestor is a lineal descendant or an Indian Tribe or Native Hawaiian organization with cultural affiliation.

Repatriation of the human remains and associated funerary objects described in this

notice to a requestor may occur on or after [INSERT DATE 30 DAYS AFTER DATE OF PUBLICATION IN THE **FEDERAL REGISTER**]. If competing requests for repatriation are received, the KSHS must determine the most appropriate requestor prior to repatriation. Requests for joint repatriation of the human remains and associated funerary objects are considered a single request and not competing requests. The KSHS is responsible for sending a copy of this notice to the Indian Tribes and Native Hawaiian organizations identified in this notice and any other consulting parties.
