Abstract of information available

Ancestors representing at least two individuals have been identified. There are no associated funerary objects present. Two ancestors are believed to have been removed from Tiburon, Marin County, CA. The exact location of the ancestors' burials are unknown however, they have been marked with a tag marked "Marin County, Seacliff Tiburon." It is not known how these ancestors were brought to SF State, at what time, or where from. They were labeled with

tags marked with "Dr. Hirabayashi" and "Jane Schellenberg." In 1970, there was an Associate Professor of Anthropology at SF State named Dr. Hirabayashi. In 1998, Julie London determined that these ancestors were culturally unidentifiable. New consultation with Federated Indians of Graton Rancheria has determined these items to be reasonably associated with their Tribe.

Cultural affiliation

Based on the information available and the results of consultation, cultural affiliation is reasonably identified by the geographical location or acquisition history of the human remains described in this notice.

Determinations

The SF State NAGPRA Program has determined that:

- The human remains described in this notice represent the physical remains of two individuals of Native American ancestry.
- There is a connection between the human remains described in this notice and the Federated Indians of Graton Rancheria, California.

Requests for Repatriation

Written requests for repatriation of the human remains in this notice must be sent to the authorized representative identified in this notice under ADDRESSES. Requests for repatriation may be submitted by:

1. Any one or more of the Indian Tribes or Native Hawaiian organizations identified in this notice.

2. Any lineal descendant, Indian Tribe, or Native Hawaiian organization not identified in this notice who shows, by a preponderance of the evidence, that the requestor is a lineal descendant or an Indian Tribe or Native Hawaiian organization with cultural affiliation.

Repatriation of the human remains described in this notice to a requestor may occur on or after [INSERT DATE 30 DAYS AFTER DATE OF PUBLICATION IN THE **FEDERAL REGISTER**]. If competing requests for repatriation are received, the SF State NAGPRA Program must determine the most appropriate requestor prior to repatriation. Requests for joint repatriation of the human remains are considered a single request and not competing requests. The SF State NAGPRA Program is responsible for sending a copy of this notice to the Indian Tribes and Native Hawaiian organizations identified in this notice and any other consulting parties.
