Title: All Stations Accessibility Program (ASAP)

OMB Number: 2132-0582

Background:

In accordance with the Paperwork Reduction Act (PRA) of 1995, the Federal Transit Administration (FTA) is requesting Office of Management and Budget (OMB) 3-year approval of an extension without change for a currently approved collection. FTA's All Stations Accessibility Program (ASAP) is a competitive grant program that helps transit agencies upgrade older rail and other fixed-guideway stations, so they are fully accessible to all riders. The program focuses on bringing legacy stations; especially those built before modern accessibility requirements into compliance by funding improvements such as elevators, ramps, level boarding, and other accessibility features. ASAP supports transit systems in removing barriers to station access and ensuring that all passengers can use public transportation independently and reliably.

Respondents: Eligible applicants for ASAP include designated recipients that allocate funds to legacy rail fixed guideway public transportation systems, states (including territories and Washington D.C.) or local governmental entities that operate legacy rail fixed guideway public transportation system.

Estimated Annual Number of Respondents: 20 respondents

Estimated Annual Number of Responses: 40 responses

Estimated Total Annual Burden: 280 hours

Frequency: Annually

Kusum Dhyani,

Director, Office of Management Planning.
