SUPPLEMENTARY INFORMATION: Pursuant to Additional U.S. Note 3 to Chapter 2 of the Harmonized Tariff Schedule of the United States (HTSUS), the United States maintains TRQs for imports of beef. Section 404(d)(3) of the URAA (19 U.S.C. 3601(d)(3)) authorizes the President to allocate the in-quota quantity of a TRQ for any agricultural product among supplying countries or customs areas and modify any allocation as determined appropriate by him. The President delegated this authority to the U.S. Trade Representative under Presidential Proclamation 6763 of December 23, 1994 (60 FR 1007).

The U.S. Trade Representative has determined to modify the existing allocations under the U.S. beef TRQ as a result of trade negotiations with the UK. On May 8, 2025, the United States and the UK announced the General Terms for the U.S.-UK Economic

Prosperity Deal (General Terms). In the General Terms, the UK agreed to establish a CSQ of 13,000 mt for U.S. beef. In return, the United States agreed to reallocate 13,000 mt from the existing volume of the “other countries and areas” TRQ allocation to a CSQ for the UK. As required in the General Terms, on June 30, 2025, the UK amended its customs laws to establish the U.S. beef CSQ.

The attached Annex provides the modifications to the HTSUS necessary to (1) set the “other countries or areas” TRQ allocation at 52,005 mt effective January 1, 2026; and (2) establish an annual UK CSQ of 13,000 mt effective January 1, 2026.
