POLICY JUSTIFICATION

Ecuador – M4A1 Rifles and Support

The Government of Ecuador has requested to buy M4A1 rifles. The following non-MDE items will also be included: Magpul PMAG M4 magazines; technical manuals; training and support; and other related elements of logistics and program support. The estimated total cost is \$64 million.

This proposed sale will support the foreign policy goals and national security objectives of the United States (U.S.) by improving the security of Ecuador, an important force for political stability and economic progress in South America.

The proposed sale will improve Ecuador's capability to meet current and future threats by improving the ability of its armed forces to conduct and execute military operations to counter transnational organized crime.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be determined after case implementation. At this time, the U.S. Government is not aware of any offset agreement proposed in connection with this potential sale. Any offset agreement will be defined in negotiations between the purchaser and the contractor.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Ecuador.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.
