December 17, 2024

The Honorable Mike Johnson
Speaker of the House
U.S. House of Representatives
H-209, The Capitol
Washington, DC 20515

Dear Mr. Speaker:

Pursuant to the reporting requirements of Section 36(b)(1) of the Arms Export Control Act, as amended, we are forwarding herewith Transmittal No. 24-34, concerning the Army's proposed Letter(s) of Offer and Acceptance to the Government of Norway for defense articles and services estimated to cost \$130 million. We will issue a news release to notify the public of this proposed sale upon delivery of this letter to your office.

Sincerely,

A handwritten signature in black ink, appearing to read "M. Miller", is positioned above the typed name.

Michael F. Miller
Director

Enclosures:

Notice of Proposed Issuance of Letter of Offer
Pursuant to Section 36(b)(1)
of the Arms Export Control Act, as amended

- (i) Prospective Purchaser: Government of Norway
- (ii) Total Estimated Value:
- | | |
|--------------------------|----------------------|
| Major Defense Equipment* | \$105 million |
| Other | <u>\$ 25 million</u> |
| TOTAL | \$130 million |
- (iii) Description and Quantity or Quantities of Articles or Services under Consideration for Purchase: Foreign Military Sales (FMS) case NO-B-VRV was below congressional notification threshold at \$2.79 million (no MDE) and included Precision Guidance Kit (PGK) cutaway models; fuze wrenches; enhanced portable inductive artillery fuze setters; GPS antennae and cables; improved Platform Integration Kits; PGK-associated hardware for testing; labor support; training aids; technical data and reports; United States (U.S.) Government technical assistance; incidental travel; transportation; PGK spare parts; equipment training; and related elements of logistics and program support. The Government of Norway has requested the case be amended to include eight thousand one (8,001) M1156A1 PGK multi-option fuzes. This amendment will cause the case to exceed the notification threshold, and thus notification of the entire program is required. The above notification requirements are combined as follows:
- Major Defense Equipment (MDE):
Eight thousand one (8,001) M1156A1 PGK multi-option fuzes
- Non-Major Defense Equipment:
The following non-MDE items will also be included: PGK cutaway models; fuze wrenches; enhanced portable inductive artillery fuze setters; GPS antennae and cables; improved Platform Integration Kits; PGK-associated hardware for testing; labor support; training aids; technical data and reports; U.S. Government technical assistance; incidental travel; transportation; PGK spare parts; equipment training; and related elements of logistics and program support.
- (iv) Military Department: Army (NO-B-VRV)
- (v) Prior Related Cases, if any: None
- (vi) Sales Commission, Fee, etc., Paid, Offered, or Agreed to be Paid: None known
- (vii) Sensitivity of Technology Contained in the Defense Article or Defense Services Proposed to be Sold: See Attached Annex
- (viii) Date Report Delivered to Congress: **December 17, 2024**

* as defined in Section 47(6) of the Arms Export Control Act.

POLICY JUSTIFICATION

Norway – M1156A1 Precision Guidance Kits Fuzes

The Government of Norway has requested to buy eight thousand one (8,001) M1156A1 Precision Guidance Kit (PGK) multi-option fuzes that will be added to a previously implemented case whose value was under the congressional notification threshold. The original Foreign Military Sales (FMS) case, valued at \$2.79 million, included PGK cutaway models; fuze wrenches; enhanced portable inductive artillery fuze setters; GPS antennae and cables; improved Platform Integration Kits; PGK-associated hardware for testing; labor support; training aids; technical data and reports; U.S. Government technical assistance; incidental travel; transportation; PGK spare parts; equipment training; and related elements of logistics and program support. This notification is for eight thousand one (8,001) M1156A1 PGK multi-option fuzes. The following non-MDE items will also be included: PGK cutaway models; fuze wrenches; enhanced portable inductive artillery fuze setters; GPS antennae and cables; improved Platform Integration Kits; PGK-associated hardware for testing; labor support; training aids; technical data and reports; U.S. Government technical assistance; incidental travel; transportation; PGK spare parts; equipment training; and related elements of logistics and program support. The estimated total program cost is \$130 million.

This proposed sale will support the foreign policy goals and national security objectives of the U.S. by improving the security of a NATO Ally that is an important force for political stability and economic progress in Europe.

The proposed sale will improve Norway's capability to meet current and future threats and enhance its interoperability with U.S. and other allied forces. This proposed sale will enhance Norway's artillery and mid-range fire capability. Norway will have no difficulty absorbing this equipment into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be Northrop Grumman Innovation Systems, located in Dulles, VA. There are no known offset agreements in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Norway.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Notice of Proposed Issuance of Letter of Offer
Pursuant to Section 36(b)(1)
of the Arms Export Control Act

Annex
Item No. vii

(vii) Sensitivity of Technology:

1. The M1156A1 Precision Guidance Kit (PGK) is a cannon artillery fuze which uses the Global Positioning System to increase the delivery accuracy of standard 155 mm high explosive ammunition. The NA37 M1156A1 includes M-code capability and eliminates the need for an anti-tamper coating to protect critical KDP technology. It is also a height-of-burst fuze, which uses a proximity sensor to cause the round to burst in the air over the enemy, increasing lethality.
2. The highest level of classification of defense articles, components, and services included in this potential sale is SECRET.
3. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures that might reduce system effectiveness or be used in the development of a system with similar or advanced capabilities.
4. A determination has been made that Norway can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.
5. All defense articles and services listed in this transmittal have been authorized for release and export to the Government of Norway.
