[Release No. 34-104564; File No. SR-SAPPHIRE-2025-46]

Self-Regulatory Organizations; MIAX Sapphire, LLC; Notice of Filing and Immediate Effectiveness of a Proposed Rule Change to Extend the Options Regulatory Fee (ORF) Sunset Date from December 31, 2025 to June 30, 2026

January 8, 2026.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (the “Act”),¹ and Rule 19b-4 thereunder,² notice is hereby given that on December 29, 2025, MIAX Sapphire, LLC (“MIAX Sapphire” or “Exchange”) filed with the Securities and Exchange Commission (the “Commission”) a proposed rule change as described in Items I and II below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Rule Change

The Exchange is filing a proposal to amend the MIAX Sapphire Options Exchange Fee Schedule (the “Fee Schedule”) relating to the Options Regulatory Fee (“ORF”) to extend the current sunset date of December 31, 2025 to June 30, 2026.

The text of the proposed rule change is available on the Exchange’s website at <https://www.miaxglobal.com/markets/us-options/all-options-exchanges/rule-filings> and MIAX Sapphire’s principal office.

II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on

the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to amend its Fee Schedule related to the ORF to extend the current sunset date of December 31, 2025 to June 30, 2026, and thus continue charging the previously established ORF in the amount of \$0.0013 per contract side through June 30, 2026. As discussed herein, the ORF sunset date of December 31, 2025 was initially proposed to provide time for the Exchange to inform its approach to ORF and discuss alternative ORF models with market participants, so that it may compete on equal footing with each of the other option exchanges that charge similar regulatory fees. Those discussions have yielded a consensus among market participants on a path forward that would address industry concerns in a manner that would effect change broadly across all U.S. options exchanges, however, the industry needs additional time to implement the changes. Thus, the Exchange proposes to extend the automatic sunset date of December 31, 2025 until June 30, 2026 in order to provide it additional time to implement changes to the ORF methodology after the sunset date while continuing to fund a portion of its regulatory program via ORF so that it may operate on equal footing with each of the seventeen (17) other options exchanges that charge similar regulatory fees in amounts that far exceed the relatively modest amounts collected by the Exchange.

As background, on August 7, 2024 the Exchange initially filed this proposal to establish an ORF in the amount of \$0.0013 per contract side that would automatically sunset on October 31, 2024 (SR-SAPPHIRE-2024-14). The Exchange withdrew SR-SAPPHIRE-2024-14, and on August 21, 2024 replaced it with SR-SAPPHIRE-2024-25 (the “Initial ORF Filing”).³ The Initial

ORF Filing was published for comment in the Federal Register on September 3, 2024.⁴ On October 31, 2024, the Exchange filed to extend the Initial ORF Filing sunset date of October 31, 2024 to May 31, 2025.⁵ On May 14, 2025, the Exchange filed to extend the Initial ORF Filing sunset date from May 31, 2025 to December 31, 2025.⁶ To date, the Securities and Exchange Commission (the “Commission”) received no comments on the Initial ORF Filing or its subsequent extension.

The ORF is designed to recover a material portion of the costs to the Exchange of the supervision and regulation of Members’⁷ customer options business, including performing routine surveillances and investigations, as well as policy, rulemaking, interpretive and enforcement activities. The Exchange believes that revenue generated from the ORF, when combined with all of the Exchange’s other regulatory fees and fines, will cover a material portion, but not all, of the Exchange’s regulatory costs. Currently, all other registered options exchanges impose ORF on their members, and those exchanges also charge ORF for executions occurring on the Exchange cleared by their customers.⁸

The Commission also noted that the filings provided only broad general statements regarding options transaction volume and did not provide any information on those exchanges’ historic or projected options regulatory costs (including the costs of regulating activity that cleared in the “customer” range and the costs of regulating

activity that occurred off exchange), the amount of regulatory revenue they had generated and expected to generate from the ORF as well as other sources, or the “material portion” of options regulatory expenses that they sought to recover from the ORF. Each of those exchanges withdrew their filings, but continue charging ORF today as discussed above. The Exchange would be at an unfair competitive disadvantage if it were not allowed to charge the ORF to recover a material portion, but not all, of the Exchange’s regulatory costs for the supervision and regulation of activity of its Members which as noted above, is charged by all currently operating options exchanges.

The Exchange appreciates the evolving changes in the markets and regulatory environment and has been evaluating its options while considering industry and regulatory feedback. In light of this, the Exchange has been reviewing its current methodologies and practices for the assessment and collection of ORF. As a result of this review, the Exchange is submitting contemporaneously with this filing another filing that proposes to adopt a modified ORF model that updates the Exchange’s process of assessing and collecting ORF, in which model ORF would be assessed to only on-Exchange transactions that clear in the customer range at the Options Clearing Corporation (“OCC”). Under the proposed modified model, the Exchange expects to continue its current practice that revenue generated from ORF will cover a material portion, but not all, of the Exchange’s regulatory costs.

To create real ORF reform, moving to a new ORF model that only assesses a fee to transactions that occur on one’s own options exchange seems to be the industry consensus. However, for a new, modified model to be truly meaningful and fair, a rate limited to transactions on one’s own exchange should be adopted by all options exchanges to provide a consistent methodology in assessing and collecting ORF going forward. As set forth in its separate filing that proposes the new, modified ORF model, the Exchange is committed to switching to this new model as soon as a consistent framework has been established with the Commission, adopted by all the options exchanges and necessary regulatory filings submitted.

Until that time, the Exchange believes it's fair and reasonable to continue to charge ORF under the current model as other options exchanges currently do until June 30, 2026. The proposed extension of the sunset date will provide time for establishment of one new, unified model going forward. The Exchange will endeavor to implement the modified ORF structure prior to the proposed June 30, 2026 sunset date.

As a new exchange, not having the opportunity to fund its regulatory program through the same regulatory fee charged by every other options exchange would place an undue competitive disadvantage upon the Exchange's regulatory program and options business as a whole. Further, the Exchange emphasizes that other exchanges will be charging ORF for transactions occurring on MIAX Sapphire until a new unified model is implemented, and as such, it follows that the exchange that is primarily responsible for monitoring those transactions should also be able to charge the ORF for activity occurring on its own market, as well as transactions it surveils on away markets. Again, the Exchange is committed to facilitating and joining efforts to revamp the ORF, however, it must be afforded additional time to do so while recouping a portion of its regulatory costs via the ORF as all other options exchanges do.

2. Statutory Basis

The Exchange believes that its proposal to amend its Fee Schedule is consistent with Section 6(b) of the Act¹⁰ in general, and furthers the objectives of Section 6(b)(4) of the Act¹¹ in particular, in that it is an equitable allocation of reasonable dues, fees, and other charges among its members and issuers and other persons using its facilities. The Exchange also believes the proposal furthers the objectives of Section 6(b)(5) of the Act¹² in that it is designed to promote just and equitable principles of trade, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general to protect investors and the

public interest and is not designed to permit unfair discrimination between customers, issuers, brokers and dealers.

The ORF is designed to recover a material portion of the costs of supervising and regulating Members' customer options business including performing routine surveillances and investigations, as well as policy, rulemaking, interpretive, and enforcement activities. Extending the current ORF sunset date to June 30, 2026 is reasonable because continued collection of ORF will serve to balance the Exchange's regulatory revenue against the anticipated regulatory costs, thereby ensuring proper regulatory funding. Moreover, the Exchange's ORF rate is lower than the amount of ORF assessed on other exchanges.¹³

Extending the sunset date is also reasonable because doing so would allow the Exchange additional time to inform its approach to ORF moving forward while recouping a portion of its regulatory expenses via the ORF as other options exchanges do. If the Exchange were not allowed to charge an ORF during this additional time period, then after the sunset date of December 31, 2025, it would be forced to pay for its regulatory program solely out of business revenues while working towards an alternative ORF solution, unlike every other competing exchange, each of which would continue to assess an ORF, including on transactions executed on the Exchange, indefinitely. This would impact the Exchange's ability to assure adequate funding of its regulatory program.

Extending the ORF sunset date to June 30, 2026 is also equitable and not unfairly discriminatory because prior to the proposed sunset date, the ORF would continue to be objectively allocated to Members in a manner that is consistent with the ORF imposed by the other seventeen (17) options exchanges. The Exchange will continue to monitor the amount of

¹³ See, e.g., NYSE Arca Options Fees and Charges, ORF and NYSE American Options Fees Schedule, Section VII(A), which provide that ORF is assessed at a rate of \$0.0023 per contract for each respective exchange. See also Cboe Options Fee Schedule, which provides an ORF rate of \$0.0023 per contract; BOX Options Fee Schedule Section II(C), which provides an ORF rate of \$0.00295 per contract; MIAX Options Fee Schedule, Section 2(b), which provides an ORF rate of \$0.0017 per contract; MIAX Pearl Fee Schedule, Section 2(b), which provides an ORF rate of \$0.0016 per contract; and the MEMX Fee Schedule which provides an ORF rate of \$0.0015.

revenue collected from the ORF to ensure that it, in combination with its other regulatory fees and fines, does not exceed the Exchange's total regulatory costs.

B. Self-Regulatory Organization's Statement on Burden on Competition

MIAX Sapphire does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act. This proposal will not create an unnecessary or inappropriate intra-market burden on competition because the ORF will apply to all customer activity, and is designed to enable the Exchange to recover a material portion of the Exchange's cost related to its regulatory activities. This proposal will not create an unnecessary or inappropriate inter-market burden on competition because it will be a regulatory fee that supports regulation in furtherance of the purposes of the Act. The Exchange is obligated to ensure that the amount of regulatory revenue collected from the ORF, in combination with its other regulatory fees and fines, does not exceed regulatory costs. MIAX Sapphire's ORF, is lower than, or comparable to, fees charged by other options exchanges for the same or similar services.

The Exchange notes that while it does not believe that its proposed ORF will impose any burden on inter-market competition, the Exchange not charging an ORF or being precluded from charging an ORF after December 31, 2025 but prior to the proposed sunset date of June 30, 2026 would, in-fact, represent a significant burden on the Exchange's ability to assure adequate funding of its regulatory program. As noted above, the Exchange is a new entrant in the highly competitive environment for equity options trading. Also, as noted above, all registered options exchanges currently impose the ORF on their members, and such ORF fees imposed by other options exchanges currently do and will continue to extend to executions occurring on the Exchange. The Exchange believes that in order to compete with these existing options exchanges, it must, in fact, impose an ORF on its Members during this additional sunset period, and that the inability to do so would result in an unfair competitive disadvantage to the Exchange.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others

Written comments were neither solicited nor received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A) of the Act¹⁴ and paragraph (f) of Rule 19b-4¹⁵ thereunder. At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule change should be approved or disapproved.

IV. Solicitation of Comments
