POLICY JUSTIFICATION

Ukraine – F-16 Sustainment Services

The Government of Ukraine has requested to buy the Joint Mission Planning System (JMPS); AN/PYQ-10 Simple Key Loaders (SKL); minor modifications and maintenance support; engine Component Improvement Program (CIP); spare and repair parts, consumables, and accessories; repair and return support; weapons software, weapons software support equipment, and classified and unclassified software and delivery support; classified and unclassified publications and documentation; personnel training and training equipment; studies and surveys; U.S. Government and contractor engineering, technical, and logistics support services; and other related elements of logistics and program support. The estimated total cost is \$266.4 million.

This proposed sale will support the foreign policy goals and national security objectives of the U.S. by improving the security of a partner country that is a force for political stability and economic progress in Europe.

This proposed sale will improve Ukraine's capability to meet current and future threats by further equipping it to conduct self-defense and regional security missions with a more robust air defense capability. Ukraine will have no difficulty absorbing these articles and services into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractors will be Sabena, located in Charleroi, Belgium; Lockheed Martin Aeronautics, located in Fort Worth, TX; and Pratt and Whitney, located in East Hartford, CT. The U.S. Government is not aware of any proposed offset agreements in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Ukraine.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 25-03

Notice of Proposed Issuance of Letter of Offer
Pursuant to Section 36(b)(1)
of the Arms Export Control Act, as amended

Annex
Item No. vii

(vii) Sensitivity of Technology:

1. The AN/PYQ-10 Simple Key Loader (SKL) is a handheld device used for securely receiving, storing, and transferring data between compatible cryptographic and communications equipment.
2. The Joint Mission Planning System (JMPS) is a multi-platform, personal computer-based mission planning system.
3. The highest level of classification of defense articles, components, and services included in this potential sale is SECRET.
4. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures that might reduce weapon system effectiveness or be used in the development of a system with similar or advanced capabilities.
5. A determination has been made that Ukraine can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This proposed sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.
6. All defense articles and services listed in this transmittal have been authorized for release and export to the Government of Ukraine.
