* as defined in Section 47(6) of the Arms Export Control Act

POLICY JUSTIFICATION

Greece – F-16 Engine Follow-On Support

The Government of Greece has requested to buy equipment and services for follow-on support of its F-16 engines. The following non-MDE items will be included: engine components, parts, and accessories; aircraft engine and ground handling equipment; major and minor modifications; spare parts, consumables and accessories, and repair and return support; classified and unclassified software delivery and support; classified and unclassified publications and technical documentation; U.S. Government and contractor engineering, technical, and logistics support services; and other related elements of logistics and program support. The estimated total cost is \$160 million.

This proposed sale will support the foreign policy and national security of the U.S. by improving the security of a NATO ally that is a force for political and economic progress in Europe.

The proposed sale will improve Greece's capability to maintain its F-16 aircraft fleet, which it operates to promote security in the Eastern Mediterranean. Greece will have no difficulty absorbing these articles and services into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be General Electric Aerospace, located in Evendale, OH. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Greece.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.
