Abstract of Proposed Collection

On October 8, 2021, the “Helping American Victims Affected by Neurological Attacks” (HAVANA) Act of 2021 (Public Law 117-46) was signed into law. In this statute, Congress authorized federal agencies to make payments to affected current employees, former employees, and their dependents for qualifying injuries to the brain. The DS-4316 provides the required medical substantiation for claims filed pursuant to the HAVANA Act and the Department’s rules (22 CFR part 135). On December 18, 2025, section 5604 of the National Defense Authorization Act for FY 2026 changed the definition of qualifying injury to the brain to include such injuries occurring on or after September 11, 2001. The DS-4316 has been amended accordingly.

Methodology

An individual wishing to make a claim under the HAVANA Act will fill out the “Patient Demographics” portion of the DS-4316 and provide it to a U.S. board certified physician as defined in the Department rules. The physician will complete the form after examining the individual and reviewing their records and will fax or email the completed form to the Department.
