k. Description of Request: Andro Hydro, LLC (applicant), a subsidiary of Eagle Creek Renewable Energy, filed a revised application that limits the proposed amendment to replacement of the existing flashboards at the Riley development with a rubber dam. The

applicant withdrew the other proposed modifications noticed on November 17, 2023, including replacement of the existing turbine-generator unit at the Jay development and installation of gorilla bars at the Riley development, due to the lack of approved funding. Aside from a short-term drawdown of the Riley impoundment of approximately 1 to 2 feet below the permanent spillway crest during construction, the applicant does not propose any changes to the facility's existing operating regime, either during construction or following installation of the rubber dam.
