

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 679

[Docket No. 250312-0037; RTID 0648-XF445]

Fisheries of the Exclusive Economic Zone Off Alaska; Pacific Cod by Catcher Vessels using Trawl Gear in the Central Regulatory Area of the Gulf of Alaska

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and
Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; closure.

SUMMARY: NMFS is prohibiting directed fishing for Pacific cod by catcher vessels
using trawl gear in the Central Regulatory Area of the Gulf of Alaska (GOA). This action
is necessary to prevent exceeding the A season allowance of the 2026 total allowable
catch (TAC) of Pacific cod allocated to catcher vessels using trawl gear in the Central
Regulatory Area of the GOA.

DATES: Effective 1200 hours, Alaska local time (A.l.t.), January 20, 2026, through 1200
hours, A.l.t., September 1, 2026.

FOR FURTHER INFORMATION CONTACT: Abby Jahn, 907-586-7228.

SUPPLEMENTARY INFORMATION: NMFS manages the groundfish fishery in the
GOA exclusive economic zone according to the Fishery Management Plan for
Groundfish of the Gulf of Alaska (FMP) prepared and recommended by the North Pacific
Fishery Management Council under authority of the Magnuson-Stevens Fishery
Conservation and Management Act (Magnuson-Stevens Act). Regulations governing
fishing by U.S. vessels in accordance with the FMP appear at subpart H of 50 CFR part
600 and 50 CFR part 679.

The A season allowance of the 2026 Pacific cod TAC allocated to catcher vessels using trawl gear in the Central Regulatory Area of the GOA is 3,508 metric tons (mt) as established by the final 2025 and 2026 harvest specifications for groundfish in the GOA (90 FR 12468, March 18, 2025) and inseason adjustment (90 FR 60022, December 23, 2025).

The Regional Administrator, Alaska Region, NMFS (Regional Administrator) has determined that there is not sufficient Pacific cod TAC to allow directed fishing during the A season by catcher vessels using trawl gear in the Central Regulatory Area of the GOA and that 3,508 mt is necessary as incidental catch to support other fisheries. The Regional Administrator has further determined that the A season allowance of the 2026 Pacific cod TAC allocated to catcher vessels using trawl gear in the Central Regulatory Area of the GOA will be reached during the A season. Therefore, in accordance with § 679.20(d)(1)(i), the Regional Administrator is establishing a directed fishing allowance of 0 mt and is setting aside the remaining 3,508 mt as incidental catch to support other anticipated groundfish fisheries. In accordance with § 679.20(d)(1)(iii), the Regional Administrator finds that this directed fishing allowance will be or has been reached. Consequently, NMFS is prohibiting directed fishing for Pacific cod by catcher vessels using trawl gear in the Central Regulatory Area of the GOA to prevent exceeding the sector's A season allowance of Pacific cod TAC.

While this closure is effective the maximum retainable amounts at § 679.20(e) and (f) apply at any time during a trip.

Classification

NMFS issues this action pursuant to section 305(d) of the Magnuson-Stevens Act. This action is required by 50 CFR part 679, which was issued pursuant to section 304(b) of the Magnuson-Stevens Act, and is exempt from review under Executive Order 12866.

Pursuant to 5 U.S.C. 553(b)(B), there is good cause to waive prior notice and an opportunity for public comment on this action, as notice and comment would be impracticable and contrary to the public interest, as it would prevent NMFS from responding to the most recent fisheries data on Pacific cod catch in a timely fashion and would delay the closure of directed fishing for Pacific cod by catcher vessels using trawl gear in the A season in the Central Regulatory Area of the GOA, which could result in this sector exceeding its A season allowance of Pacific cod TAC. NMFS was unable to publish a notice providing time for public comment because the most recent, relevant data on Pacific cod catch only became available as of January 15, 2026.

There is good cause under 5 U.S.C. 553(d)(3) to establish an effective date less than 30 days after date of publication. This finding is based upon the reasons provided above for waiver of prior notice and opportunity for public comment.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: January 16, 2026.

Kelly Denit,

Director, Office of Sustainable Fisheries,

National Marine Fisheries Service.
