American Manufacturers of Mobile Access Equipment (the petitioners).³ No other interested party submitted comments. Commerce is amending the *Final Results* to correct one ministerial error.

Legal Framework

Section 751(h) of the Tariff Act of 1930, as amended (the Act), defines a “ministerial error” as including “errors in addition, subtraction, or other arithmetic function, clerical errors resulting from inaccurate copying, duplication, or the like, and any other unintentional error which the administering authority considers ministerial.”⁴ With respect to final results of administrative reviews, 19 CFR 351.224(e) provides that Commerce “will analyze any comments received and, if appropriate, correct any ... ministerial error by amending the final results of review... {.”

Ministerial Error

Commerce reviewed the record and finds that errors alleged by the petitioner constitute a ministerial error within the meaning of section 751(h) of the Act and 19 CFR 351.224(f).⁵ Specifically, we find that the benchmark error present in Dingli’s final margin calculation, which calculated inland freight on a per-kilogram per-kilometer basis instead of a per-kilogram basis, was an inadvertent error which we consider ministerial. Pursuant to 19 CFR 351.224(e), Commerce is amending the *Final Results* to reflect the correction of this ministerial error. The revised new subsidy rate is provided below.

For a complete discussion of the ministerial error allegation, as well as Commerce’s analysis, *see* the Ministerial Error Memorandum. The Ministerial Error Memorandum is on file electronically via ACCESS. ACCESS is available to registered users at <https://access.trade.gov>.
