[Project No. 3015-019]

Southeast Alaska Power Agency; Notice of Availability of Environmental Assessment

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission or FERC) regulations, 18 CFR Part 380, Commission staff reviewed Southeast Alaska Power Agency's application for a capacity amendment of the license for the Tye Lake Hydroelectric Project No. 3015 and have prepared an Environmental Assessment (EA) for the project.¹ The licensee proposes to install a third turbine-generator unit, which would increase the total installed capacity of the project to 33.75-MW. The project is located on Tye Creek in Wrangell Borough, Alaska. The project occupies federal lands administered by the U.S. Forest Service within the Tongass National Forest.

The EA contains Commission staff's analysis of the potential environmental effects of the proposed amendment, alternatives to the proposed action, and concludes that the proposed amendment, with appropriate environmental protective measures, would not constitute a major federal action that would significantly affect the quality of the human environment.

¹ The unique identification number for documents relating to this environmental review is EAXX-019-20-000-1755615863.

The EA may be viewed on the Commission's website at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number (P-3015) in the docket number field to access the document.
