October 1, 2025

The Honorable Mike Johnson
Speaker of the House
U.S. House of Representatives
H-209, The Capitol
Washington, DC 20515

Dear Mr. Speaker:

Pursuant to the reporting requirements of Section 36(b)(1) of the Arms Export Control Act, as amended, we are forwarding herewith Transmittal No. 25-71, concerning the Air Force's proposed Letter(s) of Offer and Acceptance to the Republic of Korea for defense articles and services estimated to cost \$34 million. We will issue a news release to notify the public of this proposed sale upon delivery of this letter to your office.

Sincerely,

A handwritten signature in blue ink, which appears to read "Michael F. Miller", is positioned above the printed name.

Michael F. Miller
Director

* as defined in Section 47(6) of the Arms Export Control Act.

POLICY JUSTIFICATION

Republic of Korea – AGM-65G2 Maverick Tactical Missiles

The Republic of Korea has requested to buy forty-four (44) AGM-65G2 Maverick tactical missiles. The following non-Major Defense Equipment items will be included: U.S. Government and contractor engineering; technical, and logistics support services; and other related elements of logistics and program support. The estimated total cost is \$34 million.

This proposed sale will support the foreign policy and national security objectives of the U.S. by improving the security of a major ally that is an important force for political stability and economic progress in the Indo-Pacific region.

This proposed sale will improve the Republic of Korea's capability to meet current and future threats by increasing its critical air defense capability to deter aggression in the region and to ensure interoperability with U.S. forces. The Republic of Korea already has Maverick missiles in its inventory and will have no difficulty absorbing these articles into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be RTX Corporation, located in Arlington, VA. The purchaser typically requests offsets. At this time, the U.S. Government is not aware of any offset agreement proposed in connection with this potential sale. Any offset agreement will be defined in negotiations between the purchaser and the contractor.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to the Republic of Korea.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Notice of Proposed Issuance of Letter of Offer
Pursuant to Section 36(b)(1)
of the Arms Export Control Act

Annex
Item No. vii

(vii) Sensitivity of Technology:

1. The AGM-65G2 Maverick tactical missile is an air-to-ground missile with a lock on before launch, day or night capability. The AGM-65G2 has an imaging infrared (IIR) guidance system that allows for locking onto larger targets, such as ships. The IIR can track heat generated by a target and provides the pilot with a pictorial display of the target during darkness and hazy or inclement weather. The warhead on the AGM-65G2 is a heavyweight penetrator warhead.
2. The highest level of classification of defense articles, components, and services included in this potential sale is SECRET.
3. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures that might reduce system effectiveness or be used in the development of a system with similar or advanced capabilities.
4. A determination has been made that the Republic of Korea can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.
5. All defense articles and services listed in this transmittal have been authorized for release and export to the Republic of Korea.
