*Department of Defense.*

**DEFENSE SECURITY COOPERATION AGENCY**  
2800 Defense Pentagon  
Washington, DC 20301-2800

January 08, 2026

The Honorable Mike Johnson  
Speaker of the House  
U.S. House of Representatives  
H-209, The Capitol  
Washington, DC 20515

Dear Mr. Speaker:

Pursuant to the reporting requirements of Section 36(b)(1) of the Arms Export Control Act, as amended, we are forwarding herewith Transmittal No. 25-101, concerning the Navy's proposed Letter(s) of Offer and Acceptance to the Government of Denmark for defense articles and services estimated to cost \$45 million. We will issue a news release to notify the public of this proposed sale upon delivery of this letter to your office.

Sincerely,

A handwritten signature in black ink, appearing to read "M. Miller", is positioned above the printed name.

Michael F. Miller  
Director

- (viii) Date Report Delivered to Congress: **January 8, 2026**

\* as defined in Section 47(6) of the Arms Export Control Act.

POLICY JUSTIFICATION

Denmark – AGM-114R Hellfire Missiles

The Government of Denmark has requested to buy up to one hundred (100) AGM-114R Hellfire missiles; three (3) AGM-114R Captive Air Test Missiles; six (6) Hellfire (Longbow) M299

Hellfire Launchers; two (2) MHU-191/M trailers; and three (3) BRU-14 bomb racks. The following non-MDE items will be included: containers, training aids, weapon software, training, support equipment, spare and repair parts, publications and technical documentation, and transportation; U.S. Government and contractor engineering, technical, and logistical support services; and other related elements of logistical and program support. The estimated total cost is \$45 million.

This proposed sale will support the foreign policy goals and national security objectives of the U.S. by improving the security of a NATO Ally that is a force for political stability and economic progress in Europe.

The proposed sale will improve Denmark's capability to meet current and future threats by ensuring aviation forces' interoperability with U.S. and other allied forces as well as their ability to contribute to missions of mutual interest by delivering follow-on support and sustainment. By operating the AGM-114R Hellfire missiles, Denmark contributes to global readiness and enhances the capability for the U.S. forces operating globally alongside them. Denmark will have no difficulty absorbing these articles and services into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be Lockheed Martin Missile and Defense, Ocala, FL. At this time, the U.S. Government is not aware of any offset agreement proposed in connection with this potential sale. Any offset agreement will be defined in negotiations.

Implementation of the proposed sale will not require the assignment of U.S. Government and contractor representatives to Denmark on a temporary basis in conjunction with program technical oversight and support requirements.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 25-101

Notice of Proposed Issuance of Letter of Offer  
Pursuant to Section 36(b)(1)  
of the Arms Export Control Act

Annex  
Item No. vii

(vii) Sensitivity of Technology:

1. The Hellfire missile is a precision air-to-ground missile primarily used to target a variety of threats including tanks, armored vehicles, bunkers, and even other aircraft. The AGM-114R provides a semi-active laser guidance system and a multi-purpose warhead, allowing it to effectively engage a wide range of targets, including armored vehicles, fortified positions, and soft targets.
2. The highest level of classification of defense articles, components, and services included in this potential sale is SECRET.
3. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures that might reduce system effectiveness or be used in the development of a system with similar or advanced capabilities.
4. A determination has been made that Denmark can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.
5. All defense articles and services listed in this transmittal have been authorized for release and export to the Government of Denmark.
