**SUPPLEMENTARY INFORMATION:**

**I. Discussion**

On December 30, 2025, Duke Energy Carolinas, LLC, filed with the NRC, pursuant to Section 103 of the Atomic Energy Act and part 52 of title 10 of the *Code of Federal Regulations* (10 CFR), "Licenses, Certifications, and Approvals for Nuclear Power Plants," an application for an ESP for the Belews Creek site located in Stokes County, North Carolina. By issuance of *Federal Register* notice of Receipt and Availability on January 7, 2026, (91 FR 542), and in ADAMS under Accession No. ML25352A121, the staff also acknowledged receipt of the application.

In accordance with subpart A of 10 CFR part 52, "Early Site Permits," an applicant may seek an ESP separate from the filing of an application for a construction permit (CP) or combined license (COL). The ESP process allows resolution of issues relating to siting. At any time during the period of an ESP, the ESP holder may reference the ESP in an application for a CP or COL. These notices are being provided in accordance with the requirements in 10 CFR 50.43(a)(3).

A subsequent *Federal Register* notice will be issued addressing the acceptability of the tendered ESP application for docketing and provisions for participation of the public in the ESP process.

Dated: January 29, 2026.

For the Nuclear Regulatory Commission.

Michelle Hayes, Chief,  
Licensing and Regulatory Infrastructure  
Branch,  
Division of New and Renewed Licenses,  
Office of Nuclear Reactor Regulation.
