[Project No. 5274-001]

New Hampshire Department of Environmental Services; Notice of Availability of Environmental Assessment

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission or FERC) regulations, 18 C.F.R. Part 380, Commission staff reviewed New Hampshire Department of Environmental Services' application for surrender of the exemption for the Squam Lake Dam Hydroelectric Project No. 5274 and have prepared an Environmental Assessment (EA) for the project.¹ The exemptee proposes to surrender its exemption and decommission the project. The project is located on the Squam River, in Grafton County, New Hampshire. The project does not occupy any federal lands.

The EA contains Commission staff's analysis of the potential environmental effects of the proposed surrender, alternatives to the proposed action, and concludes that the proposed surrender would not constitute a major federal action that would significantly affect the quality of the human environment.

The EA may be viewed on the Commission's website at <http://www.ferc.gov>
