SUPPLEMENTARY INFORMATION: This package is an extension to the collection titled the Threat and Hazard Identification and Risk Assessment (THIRA) / Stakeholder Preparedness Review (SPR) Unified Reporting Tool under OMB Control Number 1660-0131. The Post-Katrina Emergency Management Reform Act of 2006 (PKEMRA) (Pub. L. 109-295), as amended by the Implementing Recommendations of the 9/11 Commission Act of 2007 (Pub. L. 110-53), established an annual requirement for the 56 States and territories to submit a State Preparedness Report. States, territories, urban areas, and Tribes receiving non-disaster preparedness grant funds administered by DHS submit the SPR annually, and this encompasses the requirements of the previous State Preparedness Report, while reflecting the updated methodology reporting needs. The legislation requires a report on current capability levels and a description of targeted capability levels from all States, territories, urban areas, and Tribes receiving non-disaster preparedness grant funds administered by DHS. Each report must also include a discussion of the extent to which target capabilities identified in the applicable state homeland security plan and other applicable plans are unmet, and an assessment of resources needed to meet the preparedness priorities established under PKEMRA Section 646(e), including: (i) an estimate of the amount of expenditures required to attain the

preparedness priorities; and (ii) the extent to which the use of Federal assistance during the preceding fiscal year achieved the preparedness priorities. To meet this requirement, States, territories, urban areas, and Tribes first identify capability targets through THIRA and then assess against these targets in the SPR. Through the SPR, these jurisdictions estimate their current capabilities, identify and describe gaps between current capabilities and targets, indicate their intended approach for addressing gaps in the future, and report on the impact of Federal grant dollars in building and sustaining capabilities. It is also important to note that completing the THIRA and SPR are allowable expenses under the grant awards.

Collection of Information

Title: Threat and Hazard Identification and Risk Assessment (THIRA) / Stakeholder Preparedness Review (SPR) Unified Reporting Tool.

Type of Information Collection: Extension, without change, of a currently approved information collection.

OMB Number: 1660-0131.

FEMA Forms: FEMA Form FF-008-FY-21-106 (formerly FEMA Forms 008-0-19 and 008-0-20), Threat and Hazard Identification and Risk Assessment (THIRA) / Stakeholder Preparedness Review (SPR) Unified Reporting Tool ; FEMA Form FF-008-FY-21-107 (formerly FEMA Form 0080-0-23), THIRA/SPR After Action Conference Calls.

Abstract: The information collected enables States, territories, urban areas, and Tribes, along with the Federal Government, to understand the risks these jurisdictions face from threats and hazards, to estimate the capabilities and resources they need to manage those risks, to assess their current capability levels against their targeted capability levels, and to identify gaps between their current capabilities and the capabilities they need. FEMA and state, territory, urban area, and tribal jurisdictions use

THIRA and SPR information to inform and prioritize their preparedness programs and activities.
