SUPPLEMENTARY INFORMATION: Under the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3501-3520), federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. The term “collection of information” is defined in 44 U.S.C. 3502(3) and 5 CFR 1320.3(c) and includes agency requests or requirements that members of the public submit reports, keep records, or provide information to a third party. Section 3506(c)(2)(A) of the PRA (44 U.S.C. 3506(c)(2)(A)) requires federal agencies to publish a 30-day notice in the *Federal Register* concerning each proposed collection of information, including each proposed extension or reinstatement of an existing collection of information, before submitting the collection to OMB for approval. To comply with this requirement, CMS is publishing this notice that summarizes the following proposed collection(s) of information for public comment.

1. *Type of Information Collection Request:* Revision of a currently approved collection;
Title of Information Collection: CMS Electronic Data Interchange (EDI) Enrollment Registration, CMS EDI Enrollment Form, and CMS EDI Enrollment Attestation Form; *Use:* The collection consists of three forms used by Medicare providers and suppliers to register for EDI services with Medicare contractors. The updated collection includes the revised CMS EDI Registration Form (10164A) and CMS EDI Enrollment Agreement Form (10164B), both serving as model forms. The collection also introduces the CMS EDI Enrollment Attestation Form (10164C), a new mandatory attestation form requiring formal compliance verification from all participating entities.

The forms collect essential information necessary to identify Medicare providers and suppliers during electronic transactions, authorize requested EDI functions, and establish appropriate access privileges for healthcare entities. These forms ensure compliance with HIPAA transaction standards while implementing strengthened security requirements for billing vendors and clearing houses that handle Medicare data. The information collected by the forms will be uploaded into Medicare contractor computer systems. Medicare contractors will store this information in a database accessed at the time of provider connection to the Medicare Data Contractor Network (MDCN). When authentication is successful and connectivity is established, transactions may be exchanged. *Form Number:* CMS-10164 (OMB control number 0938-0983); *Frequency:* Yearly; *Affected Public:* Business or other-for-profits and not-for-profits; *Number of Respondents:* 229,767; *Total Annual Responses:* 229,767; *Total Annual Hours:* 153,178. (For questions regarding this collection contact Charlene Parks at 410-786-8684.)
