[Docket No. FWS-R4-ES-2026-0034; FXES11140400000-267-FF04EF4000]

Receipt of Incidental Take Permit Application and Proposed Habitat Conservation Plan for the Sand Skink; Marion County, FL; Categorical Exclusion

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability; request for comments and information.

SUMMARY: We, the Fish and Wildlife Service (Service), announce receipt of an application from Marion County Public Schools (applicant) for an incidental take permit (ITP) under the Endangered Species Act. The applicant requests the ITP to take the federally listed sand skink incidental to the construction of a municipal development in Marion County, Florida. We request public comment on the application, which includes the applicant's proposed habitat conservation plan (HCP), and on the Service's preliminary determination that the proposed permitting action may be eligible for a categorical exclusion pursuant to the National Environmental Policy Act (NEPA), the Department of the Interior's (DOI) NEPA regulations, and the DOI Departmental Manual (DM). To make this preliminary determination, we prepared a draft screening form and NEPA statement for HCPs, both of which are available for public review. We invite comment from the public and local, State, Tribal, and Federal agencies.

DATES: We must receive your written comments on or before [INSERT DATE 30 DAYS AFTER DATE OF PUBLICATION IN THE *FEDERAL REGISTER*].

SUPPLEMENTARY INFORMATION: We, the Fish and Wildlife Service, announce receipt of an application from Marion County Public Schools (applicant) for an incidental take permit (ITP), under the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 et seq.). The applicant requests the ITP to take the federally listed threatened sand skink (*Neopseps* (= *Plestiodon*) *reynoldsi*) incidental to the construction and operation of a public school in Marion County, Florida.

We request public comment on the application, which includes the applicant's HCP, and on the Service's preliminary determination that this proposed ITP may qualify for a categorical exclusion pursuant to the National Environmental Policy Act (NEPA; 42 U.S.C. 4321 et seq.), the Department of the Interior's (DOI) NEPA regulations (43 CFR part 46), and the DOI's Departmental Manual (516 DM 8.5(C)(2)). To make this preliminary determination, we prepared a draft screening form and NEPA statement for HCPs, both of which are available for public review.

Proposed Project

The applicant requests a 10-year ITP to take skinks via the conversion of approximately 2.51 acres (ac) of occupied nesting, foraging, and sheltering skink habitat incidental to the construction and operation of a municipal development on 7.06 ac on Parcel # 37506-002-00 in Section 15, Township 16S, and Range 23E, Marion County, Florida.

The applicant proposes to mitigate for take of the skinks by purchasing credits equivalent to 5.02 ac of skink-occupied habitat within a Service-approved conservation bank. The Service would require the applicant to purchase the credits prior to engaging in any phase of the project.

Our Preliminary Determination

The Service has made preliminary determinations that reasonably foreseeable effects of the applicant's proposed project, including the construction of a municipal development and associated infrastructure, would have a minor effect on the sand skink and the human environment and that the extraordinary circumstances in 43 CFR 46.215 do not apply. Reasonably foreseeable effects encompass effects of implementation of the action including effects of the action in addition to other past, present, and reasonably foreseeable future effects.

Therefore, we have preliminarily determined that the proposed ESA section 10(a)(1)(B) permit would be a low-effect ITP that may qualify for application of a categorical exclusion (516 DM 8.5(C)(2)) pursuant to NEPA, the DOI's NEPA regulations, and the DOI DM. A low-effect ITP is one that would result in (1) negligible or minor individual or cumulative effects on species covered in the HCP; (2) no significant effect on the human environment; and (3) reasonably foreseeable effects that would not result in significant effects to the human environment.

Next Steps

The Service will evaluate the application and the comments to determine whether to issue the requested ITP. We will also conduct an intra-Service consultation pursuant to section 7 of the ESA to evaluate the effects of the proposed take. After considering the preceding and other matters, we will determine whether the permit issuance criteria of section 10(a)(1)(B) of the ESA have been met. If met, the Service will issue ITP number PER24590859 to Marion County Public Schools.
