SUPPLEMENTARY INFORMATION:

I. Abstract

This collection of information is needed to detect violations of the Export Administration Regulations (EAR) and determine if an investigation or prosecution is necessary and to reach a settlement with violators. Reporting violations or imminent violations, whether through voluntary self-disclosures or based on information provided by those who have direct knowledge of possible violations of the EAR, strengthens BIS's enforcement efforts. The disclosure activities and burden associated with this collection allows BIS to begin and conduct investigations faster and with more accurate information than would be the case if BIS had to detect the violations without such information or disclosures. BIS evaluates the seriousness of the violation and either (1) Informs the person making the disclosure that no action is warranted; (2) issues a warning letter; (3) issues a proposed charging letter and attempts to settle the matter; (4) issues a charging letter if settlement is not reached; and/or (5) refers the matter to the U.S. Department of Justice for criminal prosecution.

BIS is revising the title of this collection of information to better reflect enforcement and protective measures associated with the full scope of disclosures that are covered in Part 764 of the EAR. In addition, with the modernization of its website (www.bis.gov), BIS would like to add additional questions for submission of online tips to make the submission process easier for the public and to allow BIS to more effectively triage and process a tip once it has been submitted.
