Food Safety and Inspection Service

TITLE: New Swine Inspection System

OMB CONTROL NUMBER: 0583-0171

SUMMARY OF COLLECTION:

The Food Safety and Inspection Service (FSIS) has been delegated the authority to exercise the functions of the Secretary (7 CFR 2.18, 2.53), as specified in the Federal Meat Inspection Act (FMIA) (21 U.S.C. 601, et seq.). This statute mandates that FSIS protect the public by verifying that meat and meat products are safe, wholesome, and properly labeled. FSIS is requesting renewal of the approved information collection regarding swine slaughter inspection. On February 19, 2026, FSIS published a Notice of Proposed Rulemaking that would remove an attestation-related element of the collection, resulting in a reduction in the estimated burden. This revision aligns with the proposed rule and reflects the updated burden estimate.

NEED AND USE OF THE INFORMATION:

FSIS requires that all swine slaughter establishments operating under the New Swine Slaughter Inspection System (NSIS) monitor their systems through microbial testing and recordkeeping. Swine slaughter establishments operating under NSIS must also maintain records to document the total number of animals and carcasses sorted and removed per day and the reasons for their removal. Swine slaughter establishments may record their disposition data on FSIS Form 6200-3, Establishment Sorting Record, or provide the same information as requested on the form electronically if it is submitted in a format approved by FSIS.

DESCRIPTION OF RESPONDENTS: Business or other for-profit

NUMBER OF RESPONDENTS: 84

FREQUENCY OF RESPONSES: Recordkeeping; Reporting: On occasion
