Receipt of Incidental Take Permit Application and Proposed Habitat Conservation

Plan for the Sand Skink and Blue-tailed Mole-skink; Highlands County, FL;

Categorical Exclusion

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability; request for comments and information.

SUMMARY: We, the Fish and Wildlife Service (Service), announce receipt of an application from Rizzzo Self Storage of Sebring, LLC (Sebring Parkway Parcel) (applicant) for an incidental take permit (ITP) under the Endangered Species Act. The applicant requests the ITP to take the federally listed sand skink and blue-tailed mole skink incidental to the construction of a self-storage facility and associated infrastructure. We request public comment on the application, which includes the applicant's proposed habitat conservation plan (HCP), and on the Service's preliminary determination that the proposed permitting action may be eligible for a categorical exclusion pursuant to the National Environmental Policy Act (NEPA), the Department of the Interior's (DOI) NEPA regulations, and the DOI Departmental Manual. To make this preliminary determination, we prepared a draft screening form and NEPA statement for HCPs, which is available for public review. We invite comment from the public and local, State, Tribal, and Federal agencies.

DATES: We must receive your written comments on or before **[INSERT DATE 30 DAYS AFTER DATE OF PUBLICATION IN THE *FEDERAL REGISTER*]**.

SUPPLEMENTARY INFORMATION: We, the Fish and Wildlife Service (Service), announce receipt of an application from Rizzzo Self Storage of Sebring, LLC (applicant) for an incidental take permit (ITP), also known as a section 10(a)(1)(B) permit, under the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 et seq.). The applicant requests the ITP to take the federally threatened sand skink (*Neopseps* (= *Plestiodon*) *reynoldsi*) and blue-tailed mole skink (*Eumeces egregius lividus*) incidental to the construction and operation of a self-storage facility in Highlands County, Florida. We request public comment on the application, which includes the applicant’s habitat conservation plan (HCP), and on the Service’s preliminary determination that this proposed ITP may qualify for a categorical exclusion pursuant to the National Environmental Policy Act (NEPA; 42 U.S.C. 4321 et seq.), the Department of the

Interior's (DOI) NEPA regulations (43 CFR 46), and the DOI's Departmental Manual (516 DM 8.5(C)(2)). To make this preliminary determination, we prepared a draft screening form and NEPA statement for HCPs, both of which are available for public review.

Proposed Project

The applicant requests a 5-year ITP to take skinks via the conversion of approximately 0.88 acres (ac) of occupied nesting, foraging, and sheltering skink habitat incidental to the construction and operation of a commercial development on 5.92-ac on Parcel # C-33-34-29-080-0000-0510 in Section 33, Township 34S, and Range 29E, in the City of Sebring, Highlands County, Florida. The applicant proposes to mitigate for take of the skinks by purchasing credits equivalent to 1.76 ac of skink-occupied habitat within a Service-approved conservation bank. The Service would require the applicant to purchase the credits prior to engaging in any phase of the project.

Our Preliminary Determination

The Service has made a preliminary determination that reasonably foreseeable effects of the applicant's proposed project, construction of a commercial development and associated infrastructure (e.g., electric, water, and sewer lines), would have a minor effect on the skinks and the human environment, with applicability of none of the extraordinary circumstances of 43 CFR 46.215. Reasonably foreseeable effects encompass effects of implementation of the proposed project as well as other past, present, and reasonably foreseeable future effects. We, therefore, have preliminarily determined that the requested ESA section 10(a)(1)(B) permit would be a low-effect ITP that may qualify for application of a categorical exclusion (516 DM 8.5(C)(2)) pursuant to NEPA, the DOI's NEPA regulations, and the DOI Departmental Manual. A low-effect ITP is one that would result in (1) negligible or minor individual or cumulative effects on species covered in the HCP; (2) no significant effect on the human environment; and (3)

reasonably foreseeable effects that would not result in significant effects to the human environment.

Next Steps

The Service will evaluate the application and the comments to determine whether to issue the requested ITP. We will also conduct an intra-Service consultation pursuant to section 7 of the ESA to evaluate the effects of the proposed take. After considering the preceding and other matters, we will determine whether the permit issuance criteria of section 10(a)(1)(B) of the ESA have been met. If met, the Service will issue ITP number PER23207493 to Rizzo Self Storage of Sebring, LLC.
