Agency Forms Undergoing Paperwork Reduction Act Review

In accordance with the Paperwork Reduction Act of 1995, the Centers for Disease Control and Prevention (CDC) has submitted the information collection request titled “Evaluation Reporting Template for National and State Tobacco Control Program” to the Office of Management and Budget (OMB) for review and approval. CDC previously published a “Proposed Data Collection Submitted for Public Comment and Recommendations” notice on September 30, 2025 to obtain comments from the public and affected agencies. CDC received one comment related to the previous notice. This notice serves to allow an additional 30 days for public and affected agency comments.

CDC will accept all comments for this proposed information collection project. The Office of Management and Budget is particularly interested in comments that:

- (a) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- (b) Evaluate the accuracy of the agencies estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- (c) Enhance the quality, utility, and clarity of the information to be collected;
- (d) Minimize the burden of the collection of information on those who are to respond, including, through the use of appropriate automated, electronic, mechanical, or other

technological collection techniques or other forms of information technology, e.g.,
permitting electronic submission of responses; and
(e) Assess information collection costs.

To request additional information on the proposed project or to obtain a copy of the information collection plan and instruments, call (404) 639-7570. Comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain Find this particular information collection by selecting "Currently under 30-day Review - Open for Public Comments" or by using the search function. Direct written comments and/or suggestions regarding the items contained in this notice to the Attention: CDC Desk Officer, Office of Management and Budget, 725 17th Street, NW, Washington, DC 20503 or by fax to (202) 395-5806. Provide written comments within 30 days of notice publication.

Proposed Project

Evaluation Reporting Template for National and State Tobacco Control Program (OMB Control No. 0920-1390, Exp. 3/31/2026) – Extension - National Center for Chronic Disease Prevention and Health Promotion (NCCDPHP), Centers for Disease Control and Prevention(CDC).

Background and Brief Description

The National and State Tobacco Control Program (NTCP) was created in 1999 to encourage coordinated, national efforts to reduce tobacco-related diseases and deaths. The NTCP provides funding and technical support to state and territorial health departments. NTCP funds 50 states, Washington, D.C., Puerto Rico, and Guam. NTCP-funded programs are working to eliminate exposure to secondhand smoke, promote quitting among adults and youth, prevent initiation among youth and young adults, and identify and eliminate tobacco-related disparities.

To reach these goals, the programs implement state and community interventions, mass-reach health communication interventions, tobacco use and dependence treatment interventions, and conduct surveillance and evaluation.

This information collection project supports the NTCP tobacco program managers, administrators, and evaluators by specifying which information should be included in their annual evaluation reports. Furthermore, the information collected via this form will allow CDC to monitor and evaluate program performance; document facilitators and barriers, lessons learned, and promising practices; establish processes to support continuous program improvement and development; and assess the effectiveness and outcomes of the NTCP.

This information collection request (ICR) pertains to the form titled “Evaluation Reporting Template for National and State Tobacco Control Program” (ERT). The collection of this information is part of a federal reporting requirement for funds received by NTCP recipients.

The information collection form consolidates information necessary for evaluation of the NTCP. The data collected through the Evaluation Reporting Template for National and State Tobacco Control Program (ERT) was compared to all other potential evaluation data sources and designed not to duplicate any information collected in other tools. By contrast, the ERT will collect process and outcome evaluation findings resulting from individual evaluations designed by each NTCP recipient; findings will include contextual factors, indicators, lessons learned, and information about health inequities and health disparities.

Recipients will use the Evaluation Reporting Template for National and State Tobacco Control Program to report information to CDC about their Tobacco Control Program evaluation findings. Each recipient will submit an Evaluation Report template annually. Intended respondents include 53 cooperative agreement recipients. The estimated burden per response is eight hours for each Annual Evaluation Report and the total estimated annualized burden is 424 hours. CDC requests a three-year approval.

Estimated Annualized Burden Hours

Type of Respondents	Form Name	Number of Respondents	Number of Responses per Respondent	Average Burden per Response (in hours)
State and Territorial Health Department Tobacco Control Program Staff	Evaluation Reporting Template for National and State Tobacco Control Program	53	1	8
